

## NO FUSION IN COLORADO, SAY PROGRESSIVES

C. P. Dodge, State Chairman, Declares Tariff Bill Is Democratic Test

### PARTY GAINING STRENGTH

Neither of Old Parties Offers Solution to Industrial Evils of the Day

Special to The Gazette.  
DENVER, May 23.—C. P. Dodge, chairman, and R. M. McClintock, secretary of the Progressive party, returned this noon from a trip to Larimer and Weld counties in the interest of the party. Both expressed themselves as more than satisfied with conditions in the two northern counties.

Mr. Dodge, in an interview today, said: "With Mr. McClintock, the state secretary, I have just returned from a three days' visit to the counties of northern Colorado. I was most agreeably surprised to find that the Progressive party has increased in strength since the last election. Nowhere did we find among Progressives any sentiment in favor of fusion. On the contrary, we found everywhere a determination on the part of Progressives to strengthen the party organization, and to stand absolutely firm in the next campaign upon the principles for which we made our first fight."

"I notice that the assumption is prevalent on the part of many Republicans that the refusal of the Progressive party to consider any proposition for a fusion arises from a spirit of mere stubbornness—that there is no reason why the Republican and Progressive parties should not 'get together.'"

"As a matter of fact, there is one great and excellent reason why the two parties cannot get together. The Republican party is a reactionary party, while the Progressive party is a progressive party. We stand for certain very definite and very positive principles. If we abandon those principles and go back to the party that repudiated those principles and those of us who believe in them, then our usefulness will be ended, and some new party will have to arise to carry on the work we have begun."

Illustration of Differences.  
"In no better way can I illustrate the difference between the attitude of the Progressive party and the old parties than in relation to the sugar tariff. Now such a live subject of discussion in this state. The Republican party stands for the same old protective tariff. It has always stood for it in the past. Under that tariff the farmer has been paid as little as possible, the consumer has been charged every cent that could be squeezed out of him, and the sugar trust has piled up its fortune on the backs of the people. The Democratic party recognizes these evils. But the only remedy the Democrats propose is free trade. If under free trade, the sugar trust were fit to give the consumer the entire benefit of the reduction in the tariff, then without question, while the consumer may for a time get cheaper sugar, the sugar beet industry will be ruined. We shall have destroyed a great industry, capable of supporting thousands of our farmers, and transferred it to foreign hands."

## Adaptability of Region to Manufacturing Conclusively Shown by Numerous Exhibits

That this locality is peculiarly adapted to the development of certain lines of industry is well illustrated by the various window displays of Home Industry week. Graphic exhibitions of products tell the story much better than words and figures, and yet the compilations made by the statistics committee of the Chamber of Commerce give added significance to the displays.

Colorado Springs is favorably situated for the development of manufacturing related to the dairy industry, and the greater development of eastern Colorado along the lines upon which the Chamber of Commerce, through its agricultural committee, has been working, will have a direct bearing upon the future upbuilding of the industrial activity of this city.

Those who have seen the six exhibits of the creameries of the city, probably do not realize that this industry alone employs 83 men; that it represents an investment of \$149,000; has plants valued at \$82,230; an annual payroll of \$69,786.93; a gross annual production valued at \$474,241.82. These are the figures, and they include only the manufacturing end of the business, leaving out the statistics of a dozen or more dairies, which are big factors, but strictly speaking, do no manufacturing, but simply sell milk.

Furthermore, it is worth while to ob-

## WOOD CONNECTED WITH DYNAMITING

CHECKS ARE TRACED TO HIS OFFICE

Show "He" Paid Atteaux for "Planting" Explosives to Credit Strikers

State Historical and Natural History Society.  
BOSTON, May 23.—No checks, one of which was in payment of expenses incurred during the strike at Lawrence, were traced to the offices of the American Woolen company, at the dynamite conspiracy trial today.

The checks were issued upon the authority of William M. Wood, president of the company, and were payable to Frederick E. Atteaux, a dye manufacturer, who, with Wood and Dennis J. Collins are charged with conspiring to "plant" dynamite at Lawrence, to discredit the striking textile operatives during the industrial troubles of 1912.

It was a check for \$505, issued March 22, 1912, the voucher for which explained that the payment was for expenses incurred during the strike. The voucher, corresponding with a second check, issued June 26, 1912, for \$2,100, showed that it was a consideration "in full for all claims and demands to date." The \$505 check was signed by W. A. Currier, assistant treasurer of the woolen company, and the \$2,100 check bore the signature of William H. Dwyer, Jr., treasurer of the company. Both vouchers were marked "Approved, William M. Wood, President."

First Direct Evidence.  
Treasurer Dwyer, who was called as a government witness, testified that the check signed by him was issued at the direction of Wood. He said that Atteaux had volunteered his services to President Wood to help arrange a settlement of the strike. The examination of Mr. Dwyer occupied the greater part of the day and he will be heard again when the trial is resumed Monday.

"In admitting the checks and vouchers as evidence, Judge Crosby ruled that they would not be competent unless other evidence should be introduced, later connecting the documents directly with the alleged conspiracy. These papers furnished the first evidence introduced so far in the trial that connected Wood with the case and marked the fourth stage in the government's endeavor to show that the three defendants conspired with John J. Breen, a Lawrence undertaker, and Ernest W. Pitman, a building contractor who killed himself on the day the grand jury began its probe."

## BARNES IS REPUDIATED BY REPUBLICAN LEADERS

NEW YORK, May 23.—A number of leading Republicans of the state strongly favored the removal of William Barnes, Jr., as chairman of the state committee, in speeches tonight at a conference and dinner attended by a majority of the members of the state committee, held at the Republican club.

The conference agreed on urging a change in the method of representation of delegates at the national convention. A telegram was drafted and sent to the executive committee of the national committee, meeting tomorrow in Washington, endorsing a change in rules so that delegates would be elected according to the vote for president in the various states, and urged an early fall national convention. Mr. Barnes, not invited to the conference, set downstairs with friends.

## Kaiser's Daughter Weds German Nobleman at Noon Today

## GARY WOULD TAKE WILSON AT WORD

U. S. Steel Corporation Abolishes Secret Board Meetings in the Future

NEW YORK, May 23.—E. H. Gary, chairman of the board of directors of the United States Steel corporation, quoted President Wilson at the annual meeting today of the American Iron and Steel Institute, as saying that his company had nothing to fear from the Democratic administration, and added: "Let us accept that statement, as coming from President Wilson to mean just what he said, and let us feel assured."

When Judge Gary took his seat, a moment later, a resolution calling for public meetings of the institute hereafter, instead of executive sessions, was introduced and unanimously adopted. Several of the so-called "Gary" dinners, at which the government alleges the price of steel and iron was fixed by manufacturers, were held under the institute's auspices, and all meetings heretofore have been secret.

Judge Gary, in his talk, alluded to what he called "the disposition of legislative bodies to tinker with questions they are not very well prepared to discuss or decide," mentioning particularly the passage of laws which he said were calculated to produce crises.

Bemoans Income Tax.  
"I think, for instance," he continued, "the proposition to assess the incomes of men who have incomes of more than \$4,000 and exempting the incomes of those who receive less than \$4,000 per annum is one of the worst things that has ever happened in this country, because it immediately arranges 97 per cent of the people against 3 per cent of the people."

"I have not any doubt that at the present time there is a disposition on the part of some of the leading financiers of the country, and perhaps those whose influence is needed to carry on the best interests of the country, to withdraw their financial support from extensions of various kinds, and that we are feeling the effect to some extent."

Praises Interstate Commerce.  
"On the other hand, we have at the present time before us the possibility, and I think, the probability, of action by one department of government, the interstate commerce commission, which is calculated to produce very good results. I believe the railroad companies will secure the right to advance their rates 5 per cent."

The annual dinner of the institute was held tonight. Judge Gary presided and Prof. Frederick C. Brabner of the Carnegie Institute of Technology, Pittsburgh, was the principal speaker.

## JAPANESE EMPEROR GREATLY IMPROVED

Believed He Will Recover in From Two to Three Weeks. Nation Relieved

TOKIO, May 24.—(Saturday).—A bulletin issued this morning announced that the temperature of the emperor was 99.2 degrees. His pulse was 76 and respiration 26. Government officials say the emperor passed a favorable night, that his condition this morning is satisfactory, and that there is no cause for anxiety. A ministerial order issued today, authorizing the reopening of theaters and other places of entertainment.

At noon the temperature of the emperor had risen slightly to 101.48. Otherwise his condition remained unchanged.

SAN FRANCISCO, May 23.—The following cablegram from Tokio was received tonight by the Japanese. New World, a newspaper published here: "According to official announcement, the emperor will recover in from two to three weeks and he will completely regain his health."

"Officials of the department of the interior, after consultation with the imperial household, announced today that it was not necessary for the people to suspend ceremonies and performances."

## CHARGE AMERICANS WITH VIOLATION OF NEUTRALITY LAWS

RISSEE, Ariz., May 23.—William H. Brophy, general manager of the Phelps Dodge Mercantile company, with stores in Arizona, New Mexico and Mexico, and E. B. Coles, assistant manager, were held to answer in the United States court today on a charge of conspiracy to violate the neutrality laws. Bonds were placed at \$3,000 each by United States Commissioner G. L. Taylor and the defendants will answer at the October session of the federal court at Phoenix.

Brophy, who is one of the wealthiest men in southern Arizona, and his assistant are charged with having sold 50,000 rounds of ammunition to E. J. Perez, constitutionalist consul at Naco, Ariz., General Bracamonte of the Sonora state troops and Comandante Martinez of Naco, Sonora.

Perez and Martinez also were arrested for conspiracy to violate the neutrality laws and were held in bonds of \$2,500 each. A complaint was issued for General Bracamonte but his

(Continued on Page Four.)

Princess Victoria Luise, only daughter of Emperor William of Germany, and Prince Ernest of Cumberland, who was at noon today.

At right (above) Princess Elizabeth of Roumania and Princess Yolande, daughter of the king of Italy, who will act as maids of honor at the royal wedding.

## RACE QUESTION IS CAUSE CONTROVERSY

Speakers at Banquet Given by Japanese Society Express Friendly Sentiments

NEW YORK, May 23.—Expressions of goodwill between the United States and Japan, and hopes of continued friendly relations, were voiced by speakers today at a luncheon given by the Japan society to George W. Guthrie of Pittsburgh, newly appointed ambassador in Japan. Toasts to the Japanese emperor and the president of the United States were drunk in grape juice.

Lloyd C. Griscom acted as toastmaster. Among the speakers was Professor Iyemasa of the University of Chicago.

"I confess that to speak frankly and open-heartedly cannot be counted among the Japanese virtues," he said. "But I have been privileged to live long enough in America so that I have learned to emulate, in a measure, the American virtue of frankness. The development of events since the alien land act has been a lesson in California shows that there are drifting to the point of apprehension by President Wilson, and other far-seeing statesmen, a local affair of no great importance that is in danger of being raised to the dignity of what is called a world problem, which in its magnitude is out of all proportion to the material and economic interests involved."

## Race Question at Bottom.

The root of the California legislation, Professor Iyemasa thought, was the race question. "There is not the least doubt that the procedure of California has stirred deeply the hearts of the Japanese people. The blow is the more keenly felt because it comes from the Americans, upon whose friendship and goodwill they have relied implicitly. "America introduced Japan to the world, and thus opened the way for her remarkable career in the last half century. When Japan was struggling hard to break off the yoke of old treaties, concluded when diplomacy was an unknown science, America was among the first to recognize the justice of her contention. When we fought Russia, America gave us unreservedly her moral and financial support. To crown all, America first affixed its seal to the treaty which gave us tariff autonomy and full recognition of our equality with the great powers."

Only Ask for Justice.  
"What we ask for now is not soothing words, but the substance of justice. I have, therefore, every reason to believe that President Wilson will not cease his labors until an adjustment satisfactory to the Japanese people is made. To the new American ambassador to the mikado's court, I beg to express my ardent hope that he will find after the present dispute is over, the truth of the Japanese proverb, 'After rain the ground solidifies harder.'"

Ambassador Guthrie, in his address, referred to the illness of the emperor of Japan, and expressed a hope for his

(Continued from Page Four.)

## SPLIT IN RANKS OF REPUBLICANS CAN'T AGREE ON CALL OF CONVENTION

Meet in Washington Today to Thrash Out Internal Troubles Again

WASHINGTON, May 23.—The Republican national executive committee which will meet here tomorrow at the call of Charles D. Hughes, chairman of the national committee, will consider primarily the advisability of calling an early meeting of the national committee to consider plans for strengthening the party lines preparatory to the next congressional convention.

Before determining to call the committee together, it will be decided whether the time is ripe for the beginning of organization for the future, or whether it might be better to wait until the present Democratic administration has proceeded farther on its way, until after the tariff law has been written into the statute and its effect on the country analyzed.

Some of the party leaders are of the opinion that the agitation for a reorganization meeting of the national convention this fall is premature. It would be chiefly to consider the advisability of such a convention that the national committee would meet.

One Faction Favors Call.

The progressive wing will urge the executive committee to issue a call to the national committee. The reconciliation committee named as a result of the recent Chicago conference met today in Senator Cummins' office and decided to send a letter to the committee asking that the national committee be assembled and settle forth the progressive Republicans' views as to reorganization of the party, changes in delegate representations, methods of handling contests and other matters. The letter will be sent to the executive committee and the members of the reconciliation committee expect that they may be called upon to appear before the committee further to explain their views.

Senator Gallinger of New Hampshire, who smilingly admitted today that he belonged to the "so-called reactionaries," in discussing the urgent demand of the progressives for a national convention, declared that when the time came for reorganization, the Republican party would reorganize itself. Senator Snoot was of the same mind and there are other party leaders in and out of congress who will oppose a national convention this year.

## Still Remember Defeat.

"There is no law to prevent the suggestion of such a foolish thing as Senator Cummins and his friends propose," said Senator Gallinger. "The smoke of the last defeat has not cleared away. But it is clearing away and conditions in the party are rapidly improving without any convention. There is nothing to be gained by so unusual a proceeding as a session of the national convention this year."

None of the members of the national executive committee in Washington would indicate today what might be done with respect to calling the national committee. Some favor the proposal believing that all the questions now agitating the party had better be discussed at this time. Senator Cummins expressed the belief tonight that the national convention would be called. He was unwilling to predict its action, however, regarding a party convention.

"Old Guard" on Hand.

Among the members of the executive committee who reached here tonight were John T. Adams, Iowa; Fred W. Estabrook, New Hampshire; J. P. Goodrich, Indiana; Alva H. Martin. (Continued on Page Four.)

## TARIFF INQUISITORS SUBMIT LIST

29 QUESTIONS TO MANUFACTURERS

Require Detailed Information Concerning the Various Branches of All Industries

WASHINGTON, May 23.—Senator Simmons, chairman of the senate finance committee, made public tonight a list of 29 questions relating to the tariff prepared by majority members of the committee which will be sent to manufacturers of the country. To avert any clash over this action in the senate, the majority will send with their list the original 19 questions proposed by Senator La Follette, although most of his are incorporated in the majority list.

The committee announced in a statement that if manufacturers or persons who have filed briefs or have written or made oral protests to the finance committee will send answers before the bill is reported back to the senate, they will be printed.

"But," the statement added, "neither the report of the bill to the senate nor final action by the senate on the bill will be delayed for answers." All interrogatories must be answered under oath.

Questions Cover Wide Range.

The preliminary questions relate to the manufacturer's identity, the commodity produced, the raw materials used in production, whether they are produced here or abroad, and if imported, from whence; cost per unit of

(Continued from Page Four.)

## WOOL-SUGAR SCHEDULES CONSIDERED

Interesting Session on These Features Are Expected in Party Caucus

## DAY DEVOTED TO PROTESTS

Woolen Interests Claim They Will Suffer Heavy Loss by Free Wool Clause

WASHINGTON, May 23.—Wool and sugar, the stumbling blocks of the tariff, held the attention of the senate finance subcommittees and senators in general today. The legislative air being filled with rumors of contemplated changes and alliances, and counter rumors of a further tightening of the administration forces for free wool and for free sugar in three days.

Great interest was attached to a public statement made by Senator Walsh of Montana, condemning the proposition to put wool and sugar on the free list, which gave rise to a report that he might join with Senators Ransdell and Thurston of Louisiana and vote against the bill. In that case, the senate Democratic majority being only six, the vote on the tariff bill would be a tie necessitating the vote of Vice President Marshall to pass it. Should this develop, there are some Democrats who believe that Senator Pinckney, the only avowed progressive in the senate, will vote with them on the bill. This would give away for another Democrat to desert in the final vote.

## Expect Fight in Caucus.

Administration leaders declared today that the situation relating to the much disputed schedules looked very favorable for the Underwood bill, but they look forward to an interesting session in the party caucus when the southern and western representatives will have an opportunity to make a determined struggle against free wool and free sugar. A rumor that several of them would unite to remain out of the caucus was denied by party leaders, though one of them declared that he would not blame Senator Walsh should he determine to stay out. It became apparent that the caucus would not yield on sugar and wool.

William Whitman, a leader of the woolen interests in tariff consideration, had an interesting hour with Senator Stone's subcommittee, attacking the woolen manufactures schedule. Mr. Whitman declared the proposed duties on wool manufactures were 30 per cent less than the rates in the Wilson tariff act, which he said was supposed to be a free trade bill. Senator James urged that economic conditions in production justified a difference of 30 per cent at this time as compared to conditions when the Wilson law was enacted.

Asked if free raw wool would not prove beneficial to his interests, Mr. Whitman said it might eventually. At present, he said, his company had on hand a large supply of raw wool bought under tariff laws and that he would be at a disadvantage in working this off while other manufacturers were buying and manufacturing with wool purchased on a free of duty basis. He declared that foreign manufacturers had large amounts of woolen goods stacked away ready to put on the American market as soon as the proposed bill becomes a law.

## STATE SEMISIEGE EXISTS IN MEXICO

MEXICO CITY, May 23.—By cutting the main line of the National railway, a short distance north of San Luis Potosi, and the line from San Luis Potosi to Tampico, the rebels have restricted the operation of the railway to a radius of 150 miles from the capital northward.

As a result of the concentration of the rebels on the San Luis-Tampico line, it appears certain that the company will be unable to obtain fuel oil in sufficient quantity for the operation of even military and passenger trains for more than a few days. Besides hampering the government's troop movements, this will place a large area in the central portion of the republic in a state of semisiege.

Prices for commodities are increasing rapidly in the capital. Reports from interior towns show conditions much worse. The capital of Michoacan and Durango are in danger of attack. Morelia, the capital of Michoacan, reports that the rebels already are in its suburbs.

The federalists were defeated today in an attempt to dislodge the rebels from the San Luis Potosi-Tampico line. Residents of San Luis Potosi are greatly alarmed.

## HADLEY WILL BE A WITNESS FOR ROOSEVELT

KANSAS CITY, May 23.—Herbert S. Hadley, former governor of Missouri, announced tonight that he would be a witness for Theodore Roosevelt in the latter's suit against George A. Newell, which will begin at Marquette, Mich., next Monday.

## PURE FOOD FOR ANIMALS WILL SOON BE ASKED

CHICAGO, May 23.—Federal legislation to regulate the manufacture of food products for animals along the lines of the present food law was asked of congress by the American Feed Manufacturers' association at its fifth annual meeting today.

Charles G. Kirby, age 20, of Kansas City, weighs 103 pounds, is now six feet nine inches tall and last year grew six inches.

## REP. SISSON MAKES ANOTHER WAR SPEECH

Defies Request of Pres. Wilson and Urges U. S. Should Exclude Immigrant

WASHINGTON, May 23.—Representative Sisson of Mississippi made his announced Japanese speech today in the house. President Wilson, after Mr. Sisson recently made a war speech, called the representative to the White house and asked him not to make another speech that might complicate the diplomatic negotiations with Japan or inflame the public mind.

Mr. Sisson declared the war was not because the Japanese were involved, that he would take it toward England, France, Germany, or any other nation; and that it only required "patience and cool heads" for both countries to arrive at an amicable, fair and just settlement of all difficulties.

"If any nation," said Mr. Sisson, "should decide that they will dictate to us our land laws, then we would be unworthy of national existence if we submitted to such dictation. Does anyone claim that this is a declaration of war because I announce this truth?"

No Declaration of War.  
"It is no declaration of war for the United States government to decline to override the rights of the sovereign state at the dictation of a foreign power. If the United States government should deliver a state over to the mercies of a flood of aliens from any nation then I maintain that the federal government would have constituted its authority; it is the mere announcement of this principle a declaration of war."

"Nothing has been further from my mind than to embarrass or to tend to render more difficult the peaceful solution of whatever differences, real or imaginary, which may exist between the friendly government of Japan and our own government."

Mr. Sisson pleaded for the open door on treaty sessions of the senate.

"If the president and senate can make such a treaty, let us tear down every door of secrecy. Let us require the president to publish every letter and telegram bearing upon a contemplated treaty on the very moment of its dispatch. Let the closure of the senate be removed. Throw open the doors."

On Cheap Labor.  
"Many of these large employers of labor," he said, "would be delighted to have the federal government, through its treaty-making power, let down the bars and let the alien come in. What would become of the American farmer if the great corporations of the country should buy all the best lands and cultivate them with Mongolian, Hindu, Japanese and other cheap alien labor?"

"In California individuals and corporations owning great tracts of land are cultivating them with Hindustani, Chinese, Mexicans and Japanese. It is this class of land owners and land monopolists who are opposed to all restrictions on labor importation into this country."

"To the men and the powerful who purchase labor, I have their fortunes vastly increased by having all barriers to cheap labor broken down. They know that the quickest and surest route is through the treaty-making power because they only deal first with the man, the president and one half, two-thirds of the senate."

"I don't want this government to be destroyed through the treaty-making power," Mr. Sisson concluded. "So, gentlemen of the house, I have taken this position not because the Japanese are involved in this controversy, but I would take this position if England, Germany, France or any other nation on earth were involved."

## INCREASE IN RATES IS SUSPENDED UNTIL FALL

WASHINGTON, May 23.—A proposed advance of about a cent a hundred pounds in the freight rates on potatoes and other vegetables from Louisiana and Arkansas to Rocky mountain territory was suspended today until September 30 by the interstate commerce commission, pending an investigation.

## ENGLISH LABOR MEN OPPOSED TO PAGE

The London Trades Council, representing 50,000 unionists, has passed a resolution expressing resentment at the appointment of Walter H. Page as ambassador to England from America, calling him an enemy to organized labor.

## Special Demonstration Redfern Corsets

Through the courtesy of the manufacturers of Redfern Corsets, we announce the visit of one of their designing staff, who will spend a few days in our corset department, beginning today, May 24th. This Associate Designer, Miss McCauley, will be pleased to discuss your corset problems with you and give you personal attention in fitting the new Redfern Spring models best adapted to your figure. You are cordially invited to call at any hour or make definite appointment by mail or telephone.

# Kaufman's

EVERYTHING FOR EVERYBODY

W. D. HAYWOOD AND J. J. ETTOR.  
William D. Haywood, president of the Industrial Workers of the World, and Joseph J. Ettor, one of the most active leaders in that radical organization, are the dominating factors in the strike of the 16,000 silk workers who have practically tied up all of the industries of Paterson, N. J.

## WOOD CONNECTED

(Continued From Page One.)  
to place the explosive so as to prejudice the cause of the strikers.

Gellins and Green have testified that they planted the dynamite. Green has said that Atteaux paid for the work and that Pittman furnished the dynamite, and William H. Rice, a quarry owner, has corroborated Green's story as to Pittman's connection with the alleged plot.

Dwellely Closely Examined.  
Dwellely was questioned regarding the payment of unitemized accounts. Except for the purchase of merchandise, Dwellely said it was the company's rule not to require an itemized account for expenses incurred by any officer or regular or special employee of the company. The witness said he had known Atteaux 20 years. He often saw him at the office of the American Woolen company, both before and during the strike.

The district attorney endeavored to learn from the witness when he saw Atteaux with relation to the discovery of dynamite at Lawrence on January 26, 1912. The witness could not recall the dates of Atteaux's call and said that Atteaux might have called at the woolen company's office between the day the strike began, January 11, 1912, and the day the dynamite was found because he said Mr. Wood was ill.

The district attorney tried to make the witness admit that Mr. Wood was not ill until after January 20, but Dwellely said that Mr. Wood was taken ill with tonsillitis immediately after the strike began. He had been to the Wool home previously to the discovery of the dynamite and at that time Mr. Wood was confined to his bed.

Referring to a meeting at the woolen company's office on January 25, the witness said that William M. Butler, an attorney of this city and a well-known textile mill man, and Samuel L. Powers, one of Mr. Wood's attorneys, was there. The witness did not remember seeing Butler talking to Atteaux. He saw Butler in the presence of Mr. Wood at the office of the company during January 1912. He could not give the dates but they were toward the close of the month.

"What were Mr. Atteaux's special services in connection with the strike?" was asked.

"Mr. Atteaux volunteered to go to the company's various mills on labor matters and do what he could to arrange a settlement."

Atteaux's offer was not made in Dwellely's presence.

Wood and Atteaux were in Wood's private office, he said, while the witness stood in the hall. Atteaux said: "Is there anything I can do to help you in this matter? I'll be glad to do it."

The witness did not hear Wood's reply.

"When did this conversation take place?"

"A day or two after the strike began."

"Then that makes twice in January that Atteaux and Wood met. Now, say if you can't tell us of some other meetings."

The rule of a street railway in a hill section of Rome are successfully lubricated with running water.

## AMBASSADOR PAGE DODGES REPORTERS

QUEENSTOWN, Ireland, May 23.—William D. Haywood, president of the United States' ambassador to Great Britain, ignored all attempts of newspaper men to obtain an interview when he arrived here at 1:45 o'clock today from New York. He contented himself with the remark that his constant endeavor while holding office would be to "maintain the more than friendly relations between the United States and the United Kingdom," which had happily continued for such a long time.

The American consul here went on board the battle while she was off the coast and delivered a package of dispatches to Ambassador Page.

## GRAIN RATE SETTLED

DULUTH, Minn., May 23.—The grain rate from the Duluth-Superior harbor to Buffalo was settled today at 2 cents, and the indication is that deals now on the market for early loading will have to accept this figure.

## NEW YORK IMPORTS

NEW YORK, May 23.—Imports of merchandise and dry goods at New York for the week ending May 17, 1913, were: Imports of specie for the week ending today, \$280,485 silver and \$472,535 gold; exports, \$1,000,650 silver and \$2,135,155 gold.

## 70 ARE GRADUATED FROM THE SCHOOL OF MINES

GOLDEN, Colo., May 23.—Commencement exercises of the Colorado School of Mines are being held today. The graduating class numbers 70.

Argentina's imports for the nine months ended September 30, 1912, had an aggregate value of \$25,583,748, and exports from that republic amounted to \$32,940,240.

## WORK AS WAITRESS BEST EMPLOYMENT?

Girls Employed in St. Louis Stores at Starvation Wages. They Testify

ST. LOUIS, May 23.—That the work of a waitress is the best employment for a girl that the low wages paid to domestic servants in the rural districts is one reason why country girls seek employment in the city and that the girls in steam laundries work in such intense heat that they often faint at their work, was some of the testimony today before the Missouri senate wage investigation committee.

The testimony as to the relative desirability of work in a restaurant for a woman was given by a woman employed at a restaurant here. She said she was paid \$1 a week and that her tips averaged a dollar a day. She lives with her cousin, who works at the same restaurant during the noon lunch hour. She pays the cousin \$2 a week for taking care of her 11-year-old daughter.

"I manage well," she said, "I stop and think twice before I buy. I work 10 hours a day. Our room costs \$2.50 a week and it is room enough for a working girl. I am in it only at night. I get all my meals at the restaurant. I manage to have a suit for Sunday and a suit for work."

"My employers treat me well. I have a little bank account. Waitress work is the best there is for a girl if she

has nobody but herself to look out for."

Work for \$2.50 a Week.  
A frail little girl, who looked so thin that State Senator Kinner asked her if she had been sick, testified that she worked in a store for \$2 a week, all of which she pays to an aunt for board. A 14-year-old girl said she went to work at the same store recently for \$2.50 a week.

A girl 14 years old, busier for the fancy goods and pattern department in a department store, said she gets \$10 a week and that the average wage of the sale girls there is \$8.

A girl employed at another department store testified that she gets \$6 a week salary and commission that increases her earnings almost to \$8 a week. When ill recently she paid \$9 a week for a room in a hospital in addition to the doctor's bill. She received no salary during her illness but drew \$10 from a beneficial aid organization in the store, to which she contributed 20 cents a week.

A waitress who makes \$1 a week working from 11 a. m. to 3 p. m., was asked if she ever went to the parks on Sunday.

"I do if someone takes me," she replied. "Not on my own money. I can't afford it. I'm lucky if I have carfare to go to work."

## NISBET BEATS ARMSTRONG

DENVER, May 23.—The first official count of election results of last Tuesday was issued tonight by the elections commission. It was for the commissioner of public safety, about the successful candidate for which there had been much doubt. The official returns are: Alexander Nisbet, the lead over Hamilton Armstrong by 57 votes. The totals are: Nisbet 13,473; Armstrong 12,656.

## TWO ARE KILLED IN EXPLOSION ON BOAT

Man Risks Own Life to Save Mates and Now Is Dying From Injuries

SAN DIEGO, Cal., May 23.—Richard Curtis Smith, oiler, and H. F. Bock, chief machinist's mate, are dead and Alma Miller, oiler, who risked his life in an attempt to save Bock, is in a dying condition tonight as the result of an explosion on the United States torpedo boat destroyer Stewart today.

The accident occurred 28 miles off port during a speed test, when a steam pipe in the engine room blew out. The engines were turning 200 revolutions a minute, and the destroyer was rushing through the water at the rate of 25 knots an hour. The Stewart is the fastest of the flotilla.

Miller had a brother living at Idaho Falls, Idaho. Smith's home was at Lohm, Tex., and Bock lived at Moline, Ill. Bock had just reentered in the navy and had arranged to leave tomorrow on a four months' tour of duty for a visit with his mother and sisters in Illinois.

Captain M. G. Shoner says the accident was one for which no one could be blamed. He made an investigation and forwarded a report to Washington.

In New York infant mortality has been reduced from 135 per 1,000 to 160, principally by philanthropic efforts.

## ADAPTABILITY OF

(Continued From Page One)

F. Accurately jewelry store. Around the picture, which is sure to attract attention, are neatly arranged cartons showing the INL creamery label.

The Sanitary Dairy company is dispensing free buttermilk and cream each at the Henson book store where it has its display. "Butter" is the name of its brand of butter, which is shown, together with cottage cheese. An interesting feature of the display is a wedding cake made by Miss Elsie Stegman, by the Royal bakery of this city.

The Hollywood creamery, the new concern, has a window at the Colorado Investment and Realty company, where it shows its brands, "Hollywood" and "Sterling," together with a few actual samples of the kind of butter it is making. The exhibit is neatly arranged.

Mowry's Exhibit. A. L. Mowry has a big table of cottage cheese, surrounded with cartons

**COLORADO SPRINGS CREAMERY**

132 S. Cascade Ave. Phone Main 253

# Watch for the Button Man

At PELTA'S STORE, Today

Stewart Bros. at their shop also show some splendid panoramic effects.

## Hand-Painted China.

In the line of hand-painted china, there is also an exhibit in the window of the W. H. Foster grocery, the work of Ella A. Zimmerman. Some beautiful effects are shown and the display is a most creditable one.

A new invention that has possibilities of development is shown in the window of the Koresmeyer Drug company. It is the auto lamp, placed on display by W. H. Michael. The lamp is devised as a protection to the public, being so made that the number must at all times be plainly visible.

The Colorado Turquoise company, in its window at the Opera House pharmacy, shows a display that reveals many things of the local manufacture of which little had been known. Turquoise and other native stones, as well as samples of the stones in the rough, are displayed in an artistic manner. This company makes a specialty of gem cutting and of manufacturing jewelry.

Buttons are another local product. In the window of the Powell-Dorner Sporting Goods company is a card of various kinds, sizes and colors of buttons, manufactured by the Pella Mercantile company. While the exhibit is not large, it is indicative of the varied lines of manufacture possible in a community such as this.

## Butter Shipped East.

A carload of butter was shipped out over the Rock Island last night to Boston. This consignment is the second carload of butter to be shipped out by the Colorado Springs Creamery company this summer. The first load was sent to Boston about May 10, and shipments will be maintained at this rate from now on.

The load last night consisted of 24,036 pounds of butter in 52-pound tubs. The car was decorated with a banner which read: "This car of butter to Chapin & Adams, Boston, Mass., from the Colorado Springs Creamery company, at the foot of Pikes Peak, U. S. A., May 23, 1913." It will be an advertisement for Colorado Springs all the way to its destination.

Between 15,000 and 20,000 pounds of butter are being shipped into Colorado Springs every month at the present time. If Colorado Springs people would practice the principles taught by Home Industry week, this consumption could be supplied by local firms.

## HELPS ITALY'S PHONE GIRLS WIN RIGHT TO WED.

Queen Helena of Italy.

Love will find a way. Since 1898 the daisies who have been saying "Hello" at the telephone exchanges in Italy, where the telephone system is a government institution, have been denied the right to wed between the ages of 18 and 25 by an act of parliament. Lately they enlisted the sympathies of Queen Helena and Dowager Queen Margherita, and through their intervention the drastic law has been repealed. Within the next twenty-five days 70 matchboard brides in Rome alone will be led to the altar.

Merle Miller McClintock

## Asks Endeavorers to Aid Convicts

A former convict, James E. Gordon is asking the Christian Endeavor society of the state to address a resolution to be presented at the state convention in Lakewood in June, that the society plan to extend a helping hand to ex-convicts, to protect them from unjust persecution, and to give them a chance to start right again, treated as men as long as they prove themselves worthy of being treated so.

Mr. Gordon, who is a young man of refinement and education, is the son of a minister, who has just finished serving a term of imprisonment for forgery. He is a college graduate, and was at one time a reporter on a metropolitan daily. Last winter he was stationed at the convict camp west of Greeley.

During the term he served in prison he became a Christian worker, conducting prayer meetings at the camp, which were attended by a number of interested convicts. On account of his character and ability he was a leader among the prisoners, and now that he is free again he proposes to devote his time to working for a fair chance for the convicts when they are released.

The Grand Junction union has already taken up work of this sort, and through reading material and other means the lives of the prisoners have been brightened. Mr. Gordon's plan is that a released prisoner may feel at liberty to apply to the nearest Christian Endeavor society, for assistance in obtaining employment.

He believes that the majority of convicts are in prison justly, and he does not approve of misplaced or sentimental sympathy. He only claims that "ex-cons" should be treated not as "ex-cons" but as men, as long as they are trying to start right and atone for the past. While much has been done in the last few years for the betterment of conditions in prisons there is still little being done for them at the critical time when they start out to begin a new life.

Several of the societies of the state have decided to give their endorsement to the movement.

## Hemenway Reception Yesterday

The reception given by Mrs. Oliver E. Hemenway and Miss Adelle Hemenway yesterday afternoon at their home in North Nevada avenue was a very pleasant function.

The color chosen was pink and pinks, snapdragons and apple blossoms carried out the color, as well as a big bunch of gladioli on the tea table. Assisting the hostesses in receiving and entertaining their guests were Mrs. Frank Carter, Mrs. William A. Campbell, Mrs. Florence Rosebush, Mrs. Anna Kumpf, Mrs. William H. Spurr, Mrs. Louis A. Giddings, Mrs. William E. Frohofer, Mrs. Robert E. Simmons and Mrs. George S. Elston. Assisting in serving the guests were Miss Janet Kumpf, Miss Violet Turner, Miss Harriet Worthing, Miss Alice Taylor, Miss Gene Woodard, Mrs. David Wilson and Miss Maude Miller. More than 150 guests enjoyed the hospitality of Mrs. Hemenway and her daughter on this occasion.

## Dramatic Dance Last Night

Last night the members of the Dramatic Society of Colorado college enjoyed the annual dance in Bessie hall. The membership of the society is made up of all the college girls, and the attendance last night was good. A grand march led by Miss Jessie Barkley and Miss Helen Reed, president of the society, opened the program, and the good music and jolly party made the whole evening a pleasant one.

## Louis Persinger Home

"It is good to be back in Colorado Springs again," said Louis Persinger last night. And surely Colorado Springs felt that it was good to have him back.

It is his intention to spend much of the summer here. In June he will go to Denver, where he will play in a concert with Cavalli's orchestra. Mrs. Nordica will open the season for the orchestra, and soon thereafter the Colorado Springs violinist will appear there too. The last time that Mr. Persinger made here he was not heard in public, and the city will be glad to know that this time he will be kinder. No appearances have as yet been arranged, but they will doubtless be announced for later.

Mr. Persinger, with his father and mother, had arranged to take the Ysaye party for a ride through the surrounding country yesterday, but the plan had to be postponed until this morning. They will have as their guests Eugene Ysaye and his son, Gabriel, the pianist, Mr. Deceuse, and the manager, Mr. R. E. Johnston of New York City. At noon the Ysaye party will go to Pueblo, where they will appear tonight.

## Aprons Shown by Sewing Class.

Yesterday was the day that the members of the sewing classes of the High school chose for the exhibition of the aprons they have been making in the last few lessons. The mothers were invited to be present, and a number of them responded to the invitation, although the threatening storm prevented many who would otherwise have been glad to attend.

Unstaples in the domestic science cottage there were 58 aprons, in all sorts of dainty colors and workmanship, laid out for inspection. The girls had kept careful account of the amount of money expended, and on each article was a tag giving the price of the materials and the time required for the making. There were only a few aprons that cost as much as 50 cents, and the women who saw the exhibit said there was not one there that could be bought for less than a dollar. Two cost only 20 cents, a dotted swiss trim-

med with lace made by Miss Agnes Dunham, and another lace trimmed one made by Miss Lucille Smith. There was a pretty bodice, cap trimmed with blue forget-me-nots and pink ribbon that was extremely dainty and pretty, and that cost only 15 cents. One of the most expensive aprons was trimmed with German val lace, the total cost being \$1.25. The aprons were made by the sewing classes. The girls who have taken home lessons have been making undergarments and samples of their work were laid out for inspection. The clothing is all well and neatly made, and the experience of buying and planning the garments will prove wonderfully beneficial to the girls when they begin to have charge of households.

The girls who are nothing if not versatile, had prepared and served tea in the sun parlor facing the south. Miss Satter, who has charge of the sewing classes, asked the girls to bring cookies and hennies, and they made them at home, after Miss Cooper's receipts, but without her to watch them. And they were exceedingly good.

The exhibit was a revelation to many who had never before known of the work that is being done in the cottage, and teachers and pupils came in for their share of praise.

## Splendid Exhibition of Folk Dancing.

Surely the proper way for young people to dance folk dances is the way the young people of the Columbia school danced Thursday evening and again yesterday afternoon at the High school. The entertainment was given for the fund that is being raised for the purchase of a moving picture machine, and those who attended knew they were helping a worthy cause. And when they saw the kind of dancing that was done they felt more than ever that their money was well spent for tickets.

The costumes were particularly pretty and becoming, and the dancers were alive with the spirit of youth and grace. They were drilled in the dances by Miss Russell and a pretty feature of the evening's performance was the presentation to her of a big bunch of gladioli from the dancers. Little Miss Lucille Davis making the presentation.

It would be hard to single out any one group of dancers for special praise. The work was all of uniform degree of excellence, and every number was warmly applauded. The solo dances, "Zephyr dance," given by Miss Irene Prior, was very attractive. The honors of both performances probably went to the boys who took part in the jolly clown dance. They had to respond to all requests and were gracious about coming out again. There were some little boys among the Dutch dancers, too, and they were as well trained as the girls were.

Music by Miss Ruth-Jane's orchestra and moving pictures by a machine loaned by Whiskey and Grimwood added the finishing touches to the performances. Teachers and pupils were congratulated upon the success of the entertainment which they well deserved.

The dancers were:

—Dutch: Anna Mayhew, Adia Hudson, Pauline Jackson, Edna Smith, Owen Peterson, Josephine Gowdy, Maude Moffat, Julia Husted, Marie White, Louise Speck, Katie Hare, Eva Hill, Clowns: Alfred Marshall, Barton Seely, Francis Sheehan, Frank Schartz, Frank Waters, Robert Stinchell.

—Dutch: Benjamin Lavinia, Gillis, Dorothy Russell, Marion Peterson, Margaret Lindberg, Arthur Van Lope, Adeline Christensen, Frederick Ahrens, Harry Standring, Wallace Young, Milo Gunn, Richard Cain, Virgil Peterson.

—French: Deane's (Rachel) Anderson, Robert Barton, Little Clements, Helen Epps, Anna Jones, Victoria Mason, Irene Pitt, Margaret Thomas, Virginia Tucker, Eva Waller.

—Zephyr dance: Irene Prior.

—Waltzes: Inez Carter, Leslie Davis, Ethel Drake, Lida Hoon, Opal Hughes, Grace Lee, Jane Kappelke, Fern Lewis, Clara McCord, Sophia McIntosh, Myra Spauld, Sueton Waldron.

—Orange: Zilla Lillie, Clements, Cora McCord, Roberta Barton, Eva Waller.

## FINDS HUSBAND DEAD; HAD KILLED HIMSELF

DENVER, May 23.—When Mrs. Charles A. Hiker went into the bedroom of her 65-year-old husband this morning, she found him dead. An undertaker was summoned. Not until the undertaker prepared to remove the body was it discovered that Hiker had committed suicide by opening the arteries in his wrists and ankles with a razor. His health is thought to have been the cause of the suicide.

## WILSON WILL REWARD CAMPAIGN WORKERS

WASHINGTON, May 23.—Cato Sells and A. A. Jones, Democratic committeemen from Texas and New Mexico, respectively, will be appointed soon to federal positions by President Wilson. Mr. Sells is slated to be Indian commissioner, while Mr. Jones has been selected for assistant secretary of the Interior. Both men were active in the last campaign.

New York subways in the last eight years have transported 1,664,516,822 passengers without a single fatality.

 ON THE CORNER

QUEEN MARY OF ENGLAND Who Will Attend the Royal Wedding in Berlin Today.

## King George Emphasizes Need of World Peace in Speech in Berlin

BERLIN, May 23.—King George of England, at present the guest of Emperor William here, spoke earnestly today on the necessity for the maintenance of world peace, in replying to an address presented to him by the British residents of Berlin, gathered at the British embassy. His majesty said: "The preservation of peace is my fervent desire, as it was the chief aim and object of my father's life." This is the first political note sounded during the wedding ceremonies of Emperor William's only daughter, for which three emperors and many princes are here. The king's words seem, according to the opinion expressed in influential circles, to epitomize the view of the royal visits as a demonstration of the peaceful and friendly relations existing between the three powerful dynasties. King George and Queen Mary this afternoon were the guests at the luncheon of the British ambassador, those present being Imperial Chancellor Von Bethmann-Holweg and John G. A. Leishman, United States ambassador to Germany. At the same time Emperor Nicholas of Russia was the guest at luncheon of the Russian ambassador.

## CURRENCY BILLS ARE BEING CONSIDERED

May Not Be Introduced This Session But Committee Holding Hearings

WASHINGTON, May 23.—In addition to conducting hearings and digesting the answers to questions which are to be propounded to bankers and financial experts, the senate banking and currency committee will discuss numerous bills proposed to reform the financial system of the country before it presents a measure to the senate.

Chairman Owen and many other members of the committee are engaged in drawing up bills designed to alter the currency system, and it will be necessary for the committee to consider all of them before it settles upon a measure that it can support. It is regarded as improbable that an effort will be made at the present session to reform the banking laws of the United States, but attention will be focused on the need for more elastic currency and for the mobilization of reserves so that they can be utilized in case of financial stress.

**Republicans Apprehensive.**  
Republican leaders are convinced there is little likelihood of radical legislation on currency subjects. They do not believe that serious effort will be made to provide for the guarantee of bank deposits and they hope that some sort of central reserve association will be provided.

The subcommittee authorized to settle upon a list of questions to bankers met today but did not complete its task. Dr. A. Platt Andrew, former assistant secretary of the treasury, and one of the experts of the monetary commission, sat with the committee men and offered suggestions for questions. A formal draft will be laid before the subcommittee Monday, by Chairman Owen, who also will draw up a letter to accompany the list.

## TARIFF INQUISITORS

(Continued From Page One.)

so, what is the amount of such differential? What rates of duty have you paid?

"How many concerns are engaged in the manufacture or production of this commodity in this country, and who are the principal producers?"

"Are any of these producers organized into a trust or combination to control the price or output, or for any other purpose, or have you any other connection, direct or indirectly, in such trust or combination?"

"What proportion of the production of this commodity in this country is produced by such trust? What proportion by the independent producers?"

## Differences in Prices?

"Is there any difference in the price charged for this product in the domestic market by the independent producer and the trust producer?"

"What were your wholesale prices, f. o. b. factory, of this commodity sold in the United States during January, April, July and October, 1912, and in January, 1913?"

"What were your wholesale prices of this commodity, f. o. b. factory, for export in foreign countries during the same periods?"

"What was the cost of production of your plant per unit of your product for the fiscal years 1910 and 1912? Give cost of materials, labor, overhead charges and depreciation charges, in as much detail as possible. In this connection, give capitalization, amount of common stock, preferred stock, and amount of bonds issued; amount of actual cash or its equivalent in property received in consideration of the stock and bonds; rate of dividend paid on preferred stock and common stock, and rate of interest borne by bonds for the last 10 years; how much of your earnings for each of the years 1910, 1911, 1912, has been credited to surplus and how much devoted to additions to the plant; salaries paid during each of the foregoing years to each of your principal officials; statement of assets and liabilities, 1910, 1911 and 1912; and comparative balance sheet for these years.

## Must Give Property Value.

"Give value for which the property shown in the above statement of assets and liabilities was assessed for taxation in 1912 and transcript of your tax roll for January, April, July, October, 1912, and January, 1913.

"State amount of wages paid per annum for the years 1910, 1911 and 1912, and total value per annum of your product for the same years, and the character, quality and age of the machinery used in manufacturing your product.

"What is total cost of production per unit of the same products as yours in competing countries?"

"What is the percentage of labor cost to the total cost of a unit of product in competing countries?"

"Give cost of transportation, from your factory to the principal markets in this country, naming the markets.

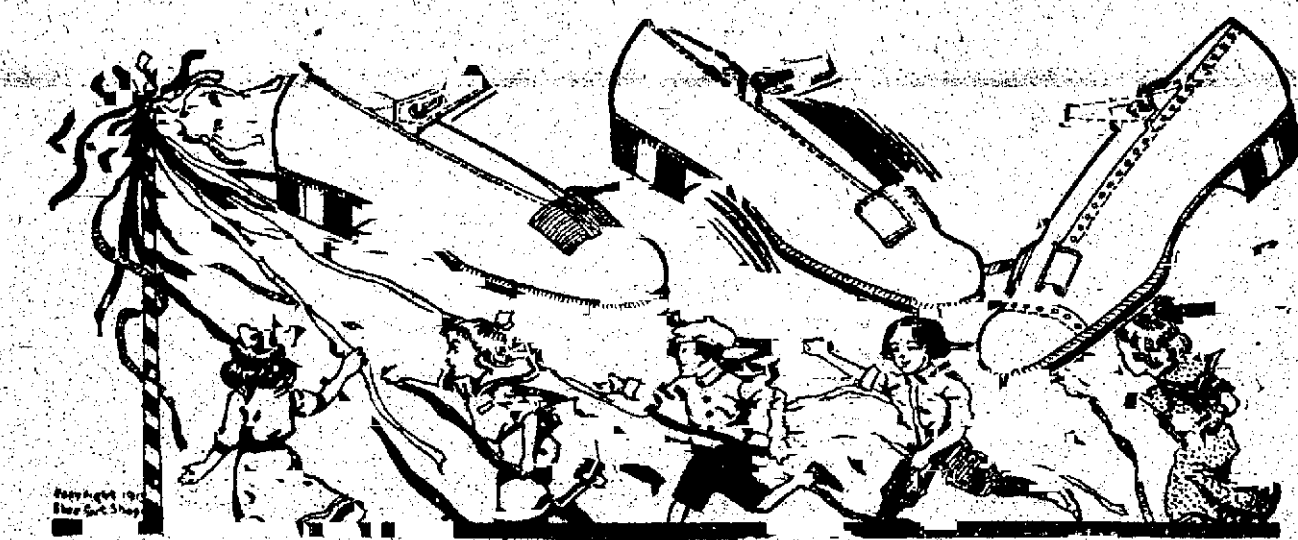

"What is the cost of transportation from the principal points of production in competing countries to the markets of this country?"

"What part of the duty under the Payne-Aldrich law represents your profit as a manufacturer?"

"Have you a pecuniary interest in the maintenance of a high tariff on this commodity?"

## 15 STUDENTS HURT WHEN BALCONY FALLS

AKRON, O., May 23.—Fifteen students of the Central high school were seriously injured and scores were badly cut and bruised today when a temporary balcony which had been erected in the auditorium of the school building collapsed. The majority of the injured were girls, many of them sustaining broken arms and legs.

## Good News of Good Shoes For the Youngsters

Those May outings what happy times for the little ones! For May-Pole parties for May processions, for Play-days out-of-doors, it makes a lot of difference if the kiddies are shod in sensible, roomy, comfortable shoes.

That's the kind you get here, combined with attractive appearance and Remarkable Wearing Qualities. Bring your little one down here tomorrow and take him, or her, away shoe-happy, while You have the comforting thought that you've obtained the Biggest Value your money could buy.

## PRESBYTERIANS ARRIGN "TENDENCIES OF TIMES"

ATLANTA, Ga., May 23.—An arraignment of the "tendencies of the times" was contained in the report of the committee on narrative presented today before the Northern Presbyterian assembly. The report deplored the "distressing loss of membership in many synods of the church."

Nearly 4,000 churches during the ecclesiastical year failed to secure a member through confession of faith, according to the report. Other features brought out were that some of the most intelligent and influential church members spend the Sabbath on the golf links instead of attending divine worship; that the extent and boldness of the white slave traffic has become appalling, even extending the report declared, into Sabbath schools and Christian Endeavor societies.

The report stated that a total of 87,000 new members through confession of faith were enrolled during the last year by the church.

## IOWA DEALERS TESTIFY FOR HARVESTER TRUST

CHICAGO, May 23.—Fifteen Iowa dealers in harvesting machinery were witnesses today for the defense at the International Harvester company and trust suit hearings.

"How many corn binders made by rival firms of the International company did you sell last year?" asked Special Prosecutor Grosvenor of J. A. Hartman of Anamosa, Ia.

"To tell the truth, I didn't sell any."

"How about the year before?" was asked.

"None then, either, I guess," the dealer replied.

The witness said that the International company made about 15 per cent of all the harvesters sold in his district. Asked the reason, in his opinion, why so many of the International company's machines were sold, the dealer said he guessed it was because they were the best machines.

## CHARGE AMERICANS

(Continued From Page One.)

presence in Sonora, prevented service of the warrant.

The arrests followed the action of the United States line riders several days ago in intercepting large shipments of ammunition which the federal authorities declared were illegally on the way to the border.

## Americans Ready to Fight.

NOGALES, Ariz., May 23.—Members of the American colony at Empalme have established a camp on the beach within call of the cruiser California in anticipation of the attack on Guaymas. Charles Hine, vice president of the Southern Pacific of Mexico, returned here today from Guaymas after having seen to the repairing of a part of the line. The work crews were compelled to carry white flags between the state and federal lines.

Gen. Pedro Medina, who held Naco, Sonora, during a long siege, has arrived at Guaymas and taken supreme command. The federal garrisons have advanced a short distance without question by the insurgents, who are awaiting the arrival of Didier Masson and his aeroplane and its gravity bombs.

100 Federals Killed.  
EAGLE PASS, Tex., May 23.—In a battle near Sacramento, in northeast Mexico, 100 federals were ambushed and killed by state troops, according to reports brought here today by Constitutionalists leaders, who are gathering across the river from here for a military conference.

Carva, a former follower of Orozco led the federals at Sacramento. This victory gave the Constitutionalists possession of all towns between Saltillo and Monclova. Huerta's opponents claim also to have captured the cities of Zatecola, Parral and San Pedro de Colonias near Torreon.

In the United States are 133 coal mines, each of which produces more than 200,000 tons annually.

## GET YOUR Summer Clothes at Greenberg's

We are now in our new location at 16 South Tejon street, and are enabled to offer our patrons the latest styles and most popular shades and patterns in finely tailored garments or tailor made, ready-to-wear suits. We would be pleased to see you and have you look over our line before you buy.

## RACE QUESTION

(Continued From Page One.)

speedy recovery. The ambassador's remarks had to do chiefly with the extension of America's trade abroad.

"There is no future for any nation if it is cut off from the light of the world," he said. "When entering the broad fields, we must do so fearlessly and with knowledge as to our country's duties and responsibilities, which we cannot shrink I am not afraid of the discontent of a free people. It is with that great and noble things are gained."

WASHINGTON, May 23.—Probably as a result of the anxiety in official circles in Japan over the condition of the emperor, no instructions have been received at the Japanese embassy to make the expected further representations to the United States government regarding the California alien land act.

The embassy is engaged in collecting material for the continuance of the negotiations on the lines indicated in the original note of protest May 9. This matter relates principally to the phase of the negotiations touching the possible conflict between the California state law and the treaty, leaving to the foreign office the broader questions of policy.

Legal proceedings of some sort seem to be indicated, both parties desiring to use that means of settlement of the issue, and the question apparently hinges upon which side falls the responsibility for making this test.

The new law will not go into effect until August 10, before which date it would not be possible to bring suit, and for that reason the negotiations appear to be losing some of the features of urgency that characterized the early stages.

DETROIT, May 23.—The man who

by word or deed, creates bad feeling between the United States and Japan is an enemy of civilization," declared James H. Franklin of Boston, foreign secretary of the American Baptist convention now in session here. Secretary Franklin, discussing a recent tour he made to Japan, said:

"The Japanese people want no trouble with the United States unless the trouble is forced on them in defense of what they consider their national honor."

"The Japanese newspapers are absolutely fair," said Mr. Franklin, "in their reports of news of a religious or moral nature." Their libraries are stocked with the best books in the world.

"With all the earnestness which I can command, I say that the Japanese are entitled to the respect and confidence of the world. We condemn in the Japanese the very traits on which Americans and Englishmen pride themselves—shrewdness and independence."

"In fact, the Japanese are known everywhere as the Yankees of the east."

## Pleased With Japan.

SAN FRANCISCO, May 23.—President Charles C. Moore of the Panama-Pacific exposition, issued the following statement relative to the action yesterday of the Japanese parliament committee in favoring an appropriation of \$500,000 for Japan's participation in the exposition:

"The action of the Japanese parliament regarding that nation's participation in the Panama-Pacific International exposition confirming the assurances previously given, especially in view of the recent events in California, is a matter of deepest gratification to the exposition management. We have confidently expected that the Japanese participation will be of a character to make the world take notice even at this universal exposition."

## Break Away from the Big Three

Nothing is more monotonous than the monotony of meat, bread and potatoes alone three times a day.

## MORRIS Solitaire Groceries

offer a delightful variety of foods and a delightful relief from the three principal staples.

Solitaire Canned Corn, Beans, Peas, Tomatoes, Beets, Succotash and other vegetables add zest to the meal, because they bring their full food value and the freshness of the field to the table when fresh vegetables are not obtainable.

"The Best the Grocer Can Deliver."

## NO FUSION

(Continued on Page Four.)

lands, where starved orientals will sweat their lives away to reap profits for the trust. If the trust does not give the consumer any material reduction in the price of sugar and, I am inclined to believe it will not, then the beet sugar factories will be able to continue in business, but they will unquestionably reduce the price paid to the farmers for beets.

## Neither Party Offers Solution.

"In either case, the trust will continue to dominate the sugar industry. Neither the Republican party nor the Democratic party offers a real solution for the very obvious evil of the sugar industry."

"The Progressive party does." We have in a progressive trust, but a tariff the rates of which shall be fixed by a board of experts, after a scientific study of all conditions. But, above and beyond this, we believe in the establishment of a federal trade commission.

## TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound and was doing for others and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I have two little girls."—Mrs. R.B. Child, Beatrice, Neb.

## The Other Case.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation, but my husband thought I had better write to you and I did so, stating my symptoms. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your Vegetable Compound."—Mrs. HAYWARD SOWERS, Cary, Maine.

## SPLIT IN RANKS

(Continued from Page One.)

Virginia, Thomas K. Neldinghaus, Missouri, and Rev. W. West of Illinois.

William E. McKinley, retiring chairman of the Republican congressional committee and manager of the tariff campaign, also is on the scene. He said tonight he was in thorough sympathy with the plan of the Republican senators for a joint caucus of senate and house Republicans to reorganize the congressional committee and to include senators in its membership since they are to be elected by the people in the future.

Mr. McKinley issued a formal statement declaring that he considered the readjustment of representation from the solid Democratic south in the Republican national convention to be the matter of the greatest importance to the future of the party. He said if the national committee decided it lacked the power to adjust this question, he favored holding a convention for the purpose.

Of Ceylon's 16,367,840 acres of land, only about 2,875,000 are under cultivation.

## WOOL-SUGAR SCHEDULES

(Continued From Page One.)

also appealed for an extension of the time when the wool schedule shall become effective. He urged that the raw wool schedule should not become effective until three months after the passage of the act and the duties on woolen manufactures six months after, in order to give the trade an opportunity to work off goods manufactured under present tariff conditions.

## Several Protests Heard.

Henry T. Oxnard, recognized as the head of the delegation representing the beet sugar interests, appeared before Senator Williams' subcommittee to protest against the proposed sugar schedule. He presented the case of the beet sugar men at length, maintaining that free sugar would be a blow to the industry in this country.

An important change in the bill as it passed the house, it was reliably reported today, has been made by Senator Stange's committee in the metal schedule. They are declared to have put iron and ferro-manganese on the free list. The Underwood bill levies a 10 per cent duty on pig iron and 15 per cent on ferro-manganese used in the manufacture of steel. An argument over these rates developed in the house. Majority Leader Underwood and Representative Palmer of Pennsylvania maintained that they should not be free listed because they were a good source of revenue. The senate subcommittee is said to have reversed this decision maintaining that they both are products of the United States steel corporation and raw material for the independent steel manufacturer and should be on the free list for that reason.

R. A. Levitt of the New York Merchants association, and S. Christy Mead of the New York Merchants exchange appeared before Senator Williams' subcommittee in opposition to the amendment suggested by Assistant Attorney General Denison and Assistant Secretary of the Treasury Curtis, which would give the secretary of the treasury authority to proclaim general import values. They urged that if such an amendment is accepted the rates should be proclaimed from day to day, based on the condition of the foreign market.

## Will Not Reduce Wages.

Corridors of the capitol and the senate office building were thronged today with those who wish to be heard before the doors of the committee room are closed, Tuesday night.

State Senator Samuel Ross of Massachusetts, representing the United Textile Workers of America, appealed to Senator Johnson's subcommittee today for not so great a reduction on cotton manufactures as is proposed. Senator Hughes asked if he thought the proposed cut would reduce wages.

"No, it won't reduce wages," said Ross, "because we won't stand for it; and the time is passed in this country for any reduction in wages. We have nothing to do with the manufacturers' end of it, but we feel that the great reduction in cotton duties will throw men out of work. If the duties on finer grades are cut it will put a heavy drain on the capitalization of the mills. I don't think the cotton mills are over-capitalized, but the workers do fear that men will be thrown out of work because the local manufacturers cannot meet foreign competition if the duties are too low."

# Prospects Bright for Big Oil Gushers in De Beque District

**Straws Today**

Saturday, the 24th, this store ushers in the official Straw Hat Season.

From today forward—for the rest of summer—straws only may be worn. Heavy hats are barred.

**RELIEF CORPS NO. 4 BEST  
IN COLORADO AND WYOMING**

Colorado Springs Women's Relief Corps No. 4 is the banner corps of the department of Colorado and Wyoming, according to the quarterly reports received Tuesday from the department headquarters. W. D. Matthews' Women's Relief Corps of Colorado Springs has the honor of initiating the greatest number of new members during the last quarter, and the ladies are greatly encouraged by their showing.

Women's Relief Corps No. 4 will give a dinner Memorial Day for the convalescing and their wives, the corps members and their husbands. The Ladies of the G. A. R. Daughters of Veterans and W. D. Matthews corps will assist.

Mrs. Helaine Russell, noted nurse, living in age and poverty in Atlantic City, has just fallen heir to \$50,000.

**Fine Remedy  
For Eczema**

Also for Salt Rheum, Tetter, Psoriasis, Lupus, and All Skin Affections.

Even a Microscope Won't Find a Blemish After S. S. S. Gets Through.

All skin troubles should be attacked from within by giving the blood circulation a good daily bath. This is accomplished with S. S. S., the best known and most highly recommended blood purifier ever discovered. Its action is very rapid. Its vegetable nature is such that it naturally goes right into the blood, saturates the entire circulation, breaks the vicious circle of impurities, enables the skin to heal quickly. The action of S. S. S. is that of an antidote, and this fact has been demonstrated time and time again in the most severe forms of eczema.

Its influence in the tissues where the tiny arteries transfer the red blood for the worn out blood to the veins is quite remarkable and goes on constantly with every tick of the clock—the beat of the heart.

And new skin is thus caused to form while the germs of irritating influences that cause eczema are scattered and their harmful nature entirely suspended.

S. S. S. has a wonderful tonic influence in the blood because it contains no "dope," is not a "physic," is entirely free of any mineral drugs or other drugs except the most remarkable medicinal effect of the pure vegetable products of which it is made.

Few people realize how harmful are many of the strong, crude ointments that used to be in favor before they learned that S. S. S. is safe, speedy and sure. Ask at any drug store for a bottle of S. S. S. Give it a good trial and you will soon see a decided improvement in any form of skin trouble. Write to The Swift Specific Co., 137 Swift Bldg., Atlanta, Ga., for special free advice on eczema and any other form of skin or blood trouble.

The opening of a commercial oil well near De Beque, Colo., a few days ago by the Grand River Oil & Gas company confirms the opinion long held by many experts that intelligent prospecting would some day result in the development of an important oil field in that district and leads to the belief among those familiar with the situation that the history of the Casper, Wyo., field may be repeated in the Grand Valley.

President Chas. T. Fertig of the Grand Valley Oil company, composed of local and De Beque men, and who went to De Beque Tuesday to investigate the new strike, is enthusiastic over the prospects.

"The strike is a good one, and the oil is exceptionally high grade," he said. "The company expects further to exploit the strike when it gets in shape to handle the product, but they have a paying proposition as it stands, even if they do no more work. They are down a little over 1,400 feet, and had no trouble with water beyond the 700-foot point. They have not gone through the oil sand stratum, in fact, they penetrated it only seven feet, and no one knows how thick it is. They stopped drilling because they had no storage tanks on hand, and wanted to be fully prepared before doing any more drilling. An expert at Tulsa, Okla., has been sent for to shoot the well, and this will be done probably within the next 30 days. It would not surprise me to see a well of several hundred barrels daily capacity developed if nothing goes wrong when the shooting is done."

**Oil Is High Grade.**

"As for quality," continued Mr. Fertig, "the oil is exceptionally high grade. You don't have to be an oil expert to see this. For years farmers and others living in that vicinity have used for lubricating purposes the oil that comes from the old holes sunk in the town of De Beque 12 years ago, and some of them even use it in their lamps. It carries a high percentage of gasoline."

Mr. Fertig is of the opinion that there is a large oil basin in that vicinity, and that it is only a question of time until it will be tapped, even if it should be proved that the Grand River company has not hit the right spot. He says the conditions both as regards the physical characteristics and the ups and downs of the field are almost identical with those of the Casper field up to the time that wonderful oil deposit was successfully exploited by the Midwest and Franco companies.

"I was in the Casper field 20 years ago," said Mr. Fertig, "and saw the same thing that I saw this week at De Beque. They had a little oil then, just as De Beque has had for several years, but no one took it seriously, and even some of the best experts turned it down. Thus it remained for years. Finally an energetic group of Colorado Springs men took hold of the field and developed it intelligently, and the result is that the Casper field is today one of the largest producers of oil in the country."

**Former Drilling in Wrong Place.**

To me it seems more apparent every day, and especially in the light of developments in the last few days, that those who drilled there 12 years ago didn't use very good judgment. Every one of the old holes was put down right in or just outside of the town of De Beque, where the surface indications were the strongest. It is easy to see now that this was a mistake. The old wells are in the broken formation described by Hayden as the "water course" of the Grand river, where the oil could seep out. The only commercial well ever developed there—the one just brought in—appears to be just outside of this broken area, where the oil has had no chance to seep away."

The Grand Valley Oil company, of which Mr. Fertig is president, has land adjoining the Grand River company, where the first commercial well in the district has just been brought in. It also has several thousand acres of land in one block just a mile south of the new strike. The Grand Valley company is composed almost wholly of Colorado Springs, Colorado City and Manitou men, among them being Mr. Fertig, George S. Elliott, C. E. Hemenway, C. A. Sheetz, W. S. Crosby, D. D. Escher, Charles T. Wilder, Mr. A. E. Egan, Pierce Kame, E. E. Novels, Robert Harrison, Maurice Jones and J. S. Greenlee. Ernest Keen, an Oklahoma oil man, and M. H. Callahan, a prominent business man of De Beque, also are interested. The officers of the Grand Valley company are: Mr. Fertig, president; Mr. Escher, vice-president, and Mr. Sheetz, secretary-treasurer.

The Grand Valley company will begin drilling operations soon.

**STREET CAR EXHIBIT  
A FEATURE OF WEEK**

The display of the Colorado Springs & Interurban Railway company is attracting as much attention as any of the Home Industry week exhibitions. The display is on the side track in front of the Mining Exchange building, and consists of two new cars, two new trailers, an old style horse car, one of the first to travel the streets of Colorado Springs, and the double trucks of a modern streetcar.

The two new cars and the trailers on exhibition were manufactured right here in Colorado Springs by the street car company, and represent a cost of about \$24,000.

The old style horse car, which was run on the streets here 23 years ago, is about 12 feet long. When it was in operation a mule furnished the locomotive power. It was brought out of the shop yesterday morning by a white horse driven by David McGarry, the oldest workman in the service of the company, while J. D. King, the oldest conductor, was doing duty on the rear platform.

Another interesting exhibit is the double trucks of a modern motor car with all its motor equipment. The trucks are stripped of the body so that spectators are able to get a very good idea of how the electricity is made to turn the car wheels.

One of the cars carries an exhibition of pictures and relief which are very interesting. A sample of the first rails used on the Colorado Springs system is shown, and alongside of it is seen one of the rails now in use. The first rail weighed 16 pounds to the yard, while the modern rail, which is used in the paved district of the city, weighs 75 pounds to the yard. In this display also are a number of fine photographs of the car barns, shops, power plant, cars and other interesting features.

**BROKAW CASE DISMISSED**

Justice Dunnington yesterday morning dismissed the charge of assault brought against Clarence Pierce Brokaw by his wife, Tillie Brokaw, and assessed the costs of the case to the complaining witness. Mrs. Brokaw is now in New York with her mother, where she died with her small son, "Russet," while her husband was in jail. It will be impossible for the court officers to collect the costs of the case now for this reason, but they will be held against Mrs. Brokaw, and can be collected if she ever returns to this country.

Some time ago Mrs. Brokaw, whose troubles with her husband have been much in the limelight lately, received a warrant when she was charged with assault, exhibiting two carefully bandaged fingers, and saying that he had broken them. With her husband in jail, Mrs. Brokaw packed her trunks and boarded a Santa Fe train for the coast, taking her son with her. Brokaw, who denies that his wife's fingers were injured, secured his release on bond the next day.

**"MRS." THE FINEST DEGREE**

From the New York Tribune.

Prof. Robert McElroy told the graduates of Wells college at their annual luncheon at Sherry's recently that the finest degree they could ever win was "Mrs."

"A. B. and A. M.," he said, "are all very well. From Wells college they are decidedly worth having. I understand, however, that 85 per cent of your graduates acquire the 'Mrs.' This is the finest degree any woman can win."

**C. N. COX SUSPENDED AS  
A RESULT OF GAMBLING**

R. P. Van Hook Will Succeed Him as Secretary Civil Service; C. F. Mathews New Police Clerk.

C. N. Cox, secretary of the civil service commission, and who also has been working for the park commission and the street department, has been suspended indefinitely by Mayor McKesson. The suspension has been in effect all week, and was made at the request of the civil service commission, park commission and street department. No definite charges were made against Cox, but it is understood that his suspension arises out of his indictment by the grand jury for gambling.

Police Clerk R. P. Van Hook, it is understood, will succeed Cox at least temporarily. Van Hook will assume his new duties Monday, and Carl F. Mathews will succeed him as police clerk.

**Petitioners Seek  
Dissolution Union  
Depot Commission**

On the ground that the agitation for a union depot "has proven a great detriment to the best business interests of the city of Colorado Springs and great hurt to East Pikes Peak avenue," a petition, signed by 10 citizens, was presented to the city council at its regular meeting yesterday morning asking that the union depot commission be dissolved and that further agitation for a consolidation of the depots be discouraged. The first name on the petition was that of Dr. D. H. Rice. The council referred the matter to the city planning commission.

The petitioners say that owing to the agitation for a consolidation of the stations, the Santa Fe railroad has deferred making the \$500,000 investment in the passenger depot and hotel, and that other improvements have been held up. They also say that, discouraged by this, several merchants have moved from Pikes Peak avenue to Tejon street and others are closing out their business. The petition says further that the Santa Fe railway company is indisposed to favor or to consider either the removal of its system from the east of the placing of its passenger station on the west side.

Several other minor matters came up at the council meeting. The Rex hotel and Cliff house were granted hotel solicitors' licenses on the recommendation of Commissioner Johnson, and the application of the Arlington hotel for one was referred to Johnston. The Associated Charities requested that the council grant the popcorn stand license to a blind man, and this was referred to Commissioner Eubank.

The council, by resolution, directed the laying of cement sidewalks on the north side of Las Animas street, between Institute and Prospect streets. Two protests in regard to street matters were referred to Commissioner Layton. One is against an electric light pole at the intersection of Cuthbert street and Nevada avenue, and the other is against the failure of the street department to construct an irrigation ditch on Las Animas street, between Weber street and Walsbach avenue.

The assistant city attorney made his report to the council after an investigation into a case in which Mrs. Eubank had filed a claim for damages against the city, recommending that the city should not offer any money in settlement of the claim. Mrs. Eubank claims damages for a fall alleged to have been due to the negligence of the city.

The Civic league requested that the council refer to Commissioner Eubank the league's communication last fall urging that some method be devised of handling the garbage in a sanitary manner, and action on this effect was taken. Eubank is to determine whether funds are available to engage an expert to report on the most feasible and economical plan of garbage disposal.

A slight cold in a child or a grown person holds possibilities of the gravest nature. Croup may come suddenly in the night, bronchitis or pneumonia may develop, and severe complications follow. It does not count on results. Foley's Honey and Tar Compound hits a cold at the outset, cures croup quickly, checks a deep-seated, racking cough, and heals the inflamed membrane of the throat. It does not contain opiates. Refuse substitutes. Robinson Drug Co., Adv.

**MUCH PROGRESS BY WEST  
SIDE IMPROVEMENT ASSN.**

About 40 members of the West Side Improvement society attended last night's meeting at the Washington school annex, and the various committees all reported progress.

The park committee said that the work of ridding the community of the small shacks and buildings in what is known as "Little Kansas" is going along satisfactorily, and that several buildings have been taken away. Others will be removed as rapidly as they are vacated.

The street committee reported that the city council has ordered sidewalks laid on West Huerfano street between the viaduct and McKinley place, and Commissioner Layton, who addressed the meeting, said that his department is ready at all times to help the work of the society wherever possible. It was pointed out that the work of the street committee has increased largely, and it was decided to appoint previous committees to cover the entire west side of the city. A. M. Holden will be in charge of the various committees.

At the next meeting, the first Friday in June, the proposed union depot project will be discussed, with members of the commission present to give talks.

**MACK'S HAVE FREE ICE  
CREAM DEMONSTRATION  
AT KAUFMAN'S**

One of the most popular home industry displays is that of the Mack Ice Cream company, which has been giving a free demonstration of its delicious ice cream and pies at Kaufman's this week. The demonstration will continue today and the public is invited to take advantage of it. The Kaufman company are giving away drinking cups to their many patrons.

Don't forget to get your pound of butter at Pelt's this afternoon, Colorado Springs Creamery. Adv.

**STATE AND NATIONAL  
EDITORS HERE IN JUNE**

The Colorado Editorial Association will hold a midsummer meeting in this city at the Antlers hotel, June 10, beginning at 10 o'clock in the morning. The meeting of the National Press association will be held directly following that of the Colorado editors, and Colorado Springs should receive much profitable advertising by their participation in the midsummer meet. It is thought that about 100 Colorado editors will attend the state meeting, while the National Press association will probably bring about 300 delegates.

**Might Not Be Alive**

McMinnville, Tenn.—Mrs. Ocie Jett, of this place, writes: "I don't believe I would be living today, if it hadn't been for Cardui. I lay in bed for 27 days, and the doctor came every day, but he did me no good. Finally, he advised an operation, but I would not consent, and instead took Cardui. Now I am going about the house doing my work, and even do my washing. Cardui worked wonders in my case. I am in better health than for five years." Cardui is a strengthening tonic for women. It relieves pain, tones up the nerves, builds strength. Try it. At your drugist's. Adv.

**NEW YORK AND RETURN  
PENNSYLVANIA LINES**

Special Excursion Tickets will be sold at Colorado Points June 1st to September 30th, 1913, to New York and various other eastern destinations with return limit of sixty days. Liberal stop-over privileges. For particulars, call at City Passenger office, Pennsylvania Lines, No. 207 Seventh Street, or address Geo. T. Hull, District Agent, Denver. Telephone Main 555.

**FINED FOR CRUELTY**

Three vaudeville performers—Wallace Galtin, Fred Calvin, and Christ Cornelia—were fined \$5 each yesterday afternoon by Justice Dunnington for cruelty to animals, and were assessed the costs of the case jointly. The charges against them arose out of a horseback ride yesterday morning from this city to the Cave of the Winds and back, in which it was alleged, they drove the horses too hard, and caused one of them to become lame. They hired the animals from the Kenyon stables, and Justice Dunnington also ordered that they pay F. B. Bryant, proprietor of the stables, \$10 for the injuries to this horse. The whole affair cost the three \$32. The case was prosecuted by Humane Officer Reynolds, who stated that it is his intention to put a stop to the misuse of horses from local stables, which is too common among tourists and others.

**SALE OF THE HOLLAND  
DAIRY FARM TODAY**

The auction sale of the Holland Dairy Farm takes place this morning at ten o'clock at the farm just north of the city limits. This will prove a rare bargain for some one. Adv.

**Guests, Self-Invited,  
Visit Bride and Groom  
at 3 in the Morning**

William L. Kelly, general foreman of The Gazette composing room, and Daisy Long, both residents of the Pikes Peak region for many years, were married here May 12, and thought to keep their wedding a secret for several weeks. A number of printers at The Gazette, however, learned of the marriage late Thursday night, and at 3 o'clock yesterday morning, after the paper had gone to press, they chartered the young couple at their new home, 122 South Eighth street.

Armed with refreshments and handsome gifts of silverware and cut glass, the self-invited guests pounded on the Kelly home until they were admitted, by the sleepy but good-natured groom of 10 days. The party broke up in time for a late breakfast.

**MATRON RESIGNS**

Mrs. Minnie J. Hawking, who has been matron of the Y. M. C. A. for the last 10 years, has resigned and will remove to 635 East Fort Worth street, where she will welcome her friends.

**Candy  
Assorted

**Discuss Plans to Land  
Jr. O. U. A. M. Council**

Plans relative to the securing of the national council of the Jr. O. U. A. M. for Colorado Springs in 1915 were discussed at a meeting of the committee appointed by Duquesne council No. 12, with representatives of the convention committee of the Chamber of Commerce last night.

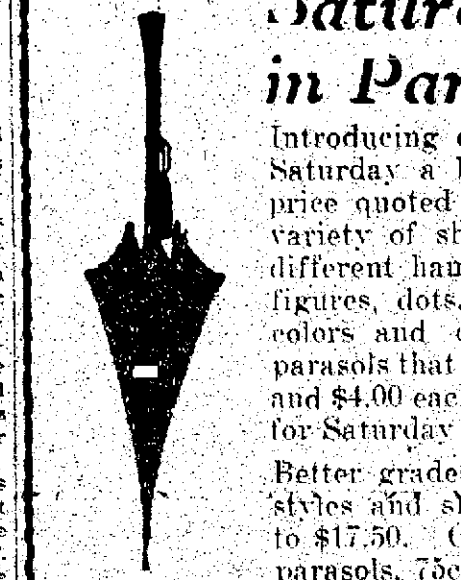

The state council, which met recently in this city, extended an invitation to the national body to meet here two years hence, and word has since been received from the state representatives that Denver will give its support to Colorado Springs and will join in the invitation from this city.

The matter will be decided at the 1915 meeting, which is to be held in about a month at Fabry, N. H. Plans to bring the attention of all delegates to the claims of Colorado Springs were considered and a publicity campaign prior to the meeting was outlined.

The committee from the local council is composed of W. L. Spencer, C. W. Stevenson, and C. B. Risk. The convention committee of the Chamber of Commerce was represented by Senator Arthur Conforth, Willard Donaldson and Secretary Henderson.

**NEW COMPANY EXPECTS TO  
START HERE BY JULY 1**

**FINK'S ORCHESTRA WILL  
GIVE CONCERTS AT M'RAE'S**

Fink's orchestra has been engaged by Manager W. C. Jones to give evening concerts at the McRae Cafe from 8 to 9 o'clock through the summer season, and the first will be given this evening. This is only one of the many improvements to make the restaurant one of the largest and most popular dining places in the west.

The entire second floor of the old Mining Exchange building, with a frontage of 50 feet, has been secured and converted into booths and private dining rooms. The lower floor of the restaurant has also been remodeled and the service throughout improved. With the facilities which have recently been added, the McRae restaurant is now prepared to accommodate between 2,000 and 3,500 people every day.

**SALE OF THE HOLLAND  
DAIRY FARM TODAY**

The auction sale of the Holland Dairy Farm takes place this morning at ten o'clock at the farm just north of the city limits. This will prove a rare bargain for some one. Adv.

**Guests, Self-Invited,  
Visit Bride and Groom  
at 3 in the Morning**

William L. Kelly, general foreman of The Gazette composing room, and Daisy Long, both residents of the Pikes Peak region for many years, were married here May 12, and thought to keep their wedding a secret for several weeks. A number of printers at The Gazette, however, learned of the marriage late Thursday night, and at 3 o'clock yesterday morning, after the paper had gone to press, they chartered the young couple at their new home, 122 South Eighth street.

Armed with refreshments and handsome gifts of silverware and cut glass, the self-invited guests pounded on the Kelly home until they were admitted, by the sleepy but good-natured groom of 10 days. The party broke up in time for a late breakfast.

**MATRON RESIGNS**

Mrs. Minnie J. Hawking, who has been matron of the Y. M. C. A. for the last 10 years, has resigned and will remove to 635 East Fort Worth street, where she will welcome her friends.

**Candy  
Assorted  
Cream Kisses**

The purity and perfection of these delicious candies—as made by Bern's—are too well known to need special comment. They are the kind that captivate the taste of everybody. Freshly made for this week-end sale.

The following meteorological record is furnished by the Colorado college weather bureau for the 24 hours ending at 6 p. m.:

Temperature at 6 a. m.	45
Temperature at 12 m.	74
Temperature at 6 p. m.	68
Maximum temperature	74
Minimum temperature	40
Mean temperature	57
Max. bar. pressure, inches	24.29
Min. bar. pressure, inches	24.11
Mean velocity of wind per hour	5
Max. velocity of wind per hour	12
Relative humidity at noon	27
Dew point at noon	54
Precipitation in inches	.01

### CITY BRIEFS

MEET us at Pelts' this afternoon at 2:30 and get a pound of Carnation butter.

BIRTH—A son was born Thursday evening to Mr. and Mrs. Henry Hughes, 220 West Mill street.

ROBERT LOUIS STEVENSON—Rev. Thomas Robert, preacher, next Sunday morning 11 o'clock at All Souls Unitarian church, N. Tejon and Dale.

BANQUET—A banquet for the graduating class of the Manitou high school was given at the Cliff house last night.

BUILDING PERMIT—The city engineer's office yesterday issued a building permit for the new plant of Armour and company on West Huerfano street. It is to be a brick building and its price is given as \$14,550.

MANY LICENSES—County Clerk Sheldon has been kept busy for the last several days issuing fishing licenses. As a good many local people are planning to go fishing in the near future.

CONDITION SATISFACTORY—The condition of Fire Chief P. D. McCarrin, who is ill of bronchial pneumonia at the chicken sanatorium, was reported as satisfactory at a late hour last night. His chances for recovery are regarded as excellent.

AUTO ACCIDENT—Chick Thompson and M. L. Cranser sustained a number of bruises yesterday afternoon when Thompson's automobile was overturned in Bear Creek canon. A stone caught in the steering gear of the machine caused the accident. The car was slightly damaged.

The great calamity in Omaha was quickly overshadowed by the terribly disastrous floods in Ohio. Great suffering and sickness from colds and exposure resulted, which Foley's Honey and Tar Compound helped to alleviate. L. Poole, 2217 California St., Omaha, writes: "My daughter had a severe cough and cold, but Foley's Honey and Tar Compound knocked it out in no time. My wife would not keep house without it. We have used it for years, always with good results." Robinson Drug Co.

Song will thus be translated into white and opal walls, tapestries and cushions, with the flowers in "white glass vases of diluted alabaster." The originator of the idea has already designed a "Wagner cushion," with a gold theme, and a background of purple to represent trumpet notes.

## Personal Mention

Miss Ruth Maxwell, who is ill at the Clifton sanatorium, was much improved yesterday.

Miss Nora Buchanan will leave Colorado Springs for the northwest early next week.

Dr. J. C. Locklin and S. T. Gill leave tomorrow for New York and other eastern cities, where they will visit for several weeks.

Mrs. J. Oppenheim of Oakland, Cal., is visiting her brothers, David and Maudie Finkelstein of Colorado Springs.

M. L. Madden, who for the last year has been chief clerk of the Metropolitan hotel in Denver, has become head clerk of the Acacia hotel.

Dr. Herman Trossbach, Jr., and his bride of a few weeks, returned to Colorado Springs yesterday after a visit to New York city, Galveston and other cities.

Julius S. Stein and family of Baltimore arrived here yesterday and will remain for some time, visiting points of interest. Mr. Stein is a prominent banker of Baltimore.

Mrs. Charles Neget, who underwent an operation for peritonitis recently at Bethel hospital, is improving rapidly and it is expected that she will be out soon.

R. S. Brownlie underwent a serious operation at Chicago a week ago, and while his condition is still serious it is thought that he will recover. Mr. Brownlie is cashier of the El Paso National bank and prominent in local business and social circles.

Mr. and Mrs. William D. Quackenbush and daughter and Miss Rachel Mason will leave tomorrow for an extended visit in New York and other eastern points. They will make the trip from New Orleans to New York by steamer.

## She Stayed In Bed

Jazzon, Texas.—"Ever since I became a woman," writes Mrs. E. M. Evans, of this place, "I suffered from womanly troubles. Last fall, I got so bad, I had to stay in bed for nearly a week every month. Since I have taken Cardui, I feel better than I have for years. You can rely on Cardui. It acts on the womanly organs and helps the system to regain its normal state of health in a natural way. Prepared especially for women, it prevents womanly pains by acting on the cause and builds up womanly strength in a natural way. Purely vegetable. Mild, but certain in action. Try it."

THE LATEST FASHION NOTE  
Sara: "It is a wise precaution against getting holes in delicate hosiery to powder the shoes before putting them on." Many people sprinkle the famous antiseptic powder, Allen's Foot-Powder, into the shoes, and not only keep them cool and free from itching and chafing, but also prevent the feet from becoming sore.

Class, 10 a. m., by Prof. George M. Howe. Midweek meeting, Wednesday, 7:45 p. m. "Our debt to the Roman Catholic Church," being the first of a series of meetings in appreciation of other faiths than our own.

Church of God—Corner Weber and Cucharas streets. L. Howard Juller, pastor. Morning service, 11 o'clock. Evening service, 7:30 o'clock. Bible school, 9:45 a. m. Healing and praise service at 2:30 p. m. when we pray for sick folks and anoint them with oil in the name of the Lord. Prayer meeting each Tuesday and Thursday, 7:30 p. m. Come and bring your friends to enjoy the old-time religion.

Methodist Episcopal, South—Corner Cheyenne avenue and North Weber street. R. Ira Barnett, pastor. Morning service, 11 o'clock. Subject, "All Together for a Better Colorado." Evening service, 8 o'clock. Subject, "Growth a Law of the Christian Life." Sunday school, 9:45 a. m. Prayer meeting Wednesday, 8 p. m. Subject, "The Experience of the Holy Spirit."

Friends—Tejon and Fountain streets. Miss Baird, pastor. Morning service, 11 o'clock. Evening service, 8 o'clock. Bible school, 9:30 a. m. James Tabor, superintendent. Miss Baird will supply the pulpit for June and July as pastor.

People's Mission—27 West Huerfano street. Meetings every evening, 8 o'clock, excepting Monday. Sunday services as follows: Prayer meeting, 8 a. m. Sunday school, 10 a. m. Preaching, 11 a. m. Holiness meeting, 2 p. m. Y. P. H. L. 6 p. m. Evangelistic service, 8 p. m. Open-air meeting preceding evening services. Hedvig M. Peterson in charge.

Boulder Street Presbyterian—East Boulder street, near Institute. Take Institute or Printers Home cars. E. H. Edick, D. D., pastor. Morning service, 11 o'clock. Subject, "The Translation of Elijah a Type of the Translation of the Church at the Second Coming of Our Lord." Evening service, 8 o'clock. Subject, "The Power of the Word." Bible school, 9:45 a. m. S. A. MacDougall, superintendent. Prayer meeting, 8 p. m. Wednesday, theme, "Things for Which We Should Pray."

## News of Local Courts

### GETZ GETS HIS

Earl Getz, who was fined \$100 in police court last summer for vagrancy, but ran away before he had begun serving his sentence, was picked up by the police Thursday night, and yesterday morning in police court he was ordered on the rock pile to serve out his sentence. This at the prevailing rate for rock pile work means 50 days. Several other vagrants were fined \$20 each, and in default of payment were committed for 10 days work on the rock pile. J. Dunck, on a negro suspected of complicity in a murder in Pueblo, was fined \$20 and committed to jail pending further investigation. Several other drunks and vagrants, arrested yesterday, will come up in court this morning.

A charge of assault and battery, lodged against John De in Justice Dunnington's court, was dismissed yesterday, and the costs of the case were assessed to the complaining witness, Harry North.

District Judge Little late yesterday afternoon upheld the recent decision of the county court which appointed the Colorado Title & Trust company administrator of the estate of the late Mrs. Anna Spangler, preventing her husband, David M. Spangler of Colorado City, from filing that office. The estate is valued at \$40,000, and Mrs. Spangler's children brought the contest which kept their stepfather from being made its administrator.

The Chinese government has armed and equipped 14 automobiles for patrol work against outlaw bands in the interior of Mongolia.

## ONLY ONE "BEST"

Colorado Springs People Give Credit Where Credit Is Due

People of Colorado Springs who suffer with weak kidneys and back aches want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Colorado Springs people. Here's a case:

J. W. Riley, 604 N. Spruce St., Colorado Springs, Colo., says: "I was bothered for many years by kidney trouble. I had backaches and sharp pains through my kidneys and hips. Occasionally I had headaches and the kidney secretions were profuse, especially at night. I used remedies and physicians' prescriptions, but I never got relief until I used Doan's Kidney Pills, which I got at the D. Y. Butcher Drug Co. One box cured the attack, and since then I have taken Doan's Kidney Pills whenever I have had any sign of kidney complaint. They are all right."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name Doan's and take no other.

## TIGERS BEAT MINES IN 10-INNING GAME

### Hughes Checks Golden Boys When Jackson Quits Box in Ninth

GOLDEN, Colo., May 23.—Coach Rothgeb's strategy in yanking Jackson from the box in the ninth and sending in Hughes, went a long way toward winning today's game. Score, Colorado college 7, School of Mines 6. In a contest that went ten innings. For nine innings Jackson had pitched good ball for the Tigers, but he weakened in the last couple of rounds and was flying the distress signal when Hughes was called to the rescue. The Mines had found Jackson's fast ball and Rothgeb guessed that a change of pace would bother them. His theory was correct, and Hughes was called after Jackson had walked two men and tossed three wide ones to a third. Hughes passed this batter, filling the bases, but the next two fell victims to the slow ball and the third was retired, short to first, without a run scoring.

In the Tiger half of the tenth, with the score standing 5 to 3, and with men on third and second, Lindstrom's single sent in two rallies. The Mines threatened to again tie the count, but fell short by one run. Features of the game, outside of Hughes' ninth inning rescue, were a homerun by Moberg, scoring two runs, and Kramer's throwing to bases.

Score.

TIGERS	A	R	H	O	A	E
Wall, cf.	3	1	1	1	0	0
Hughes, lf. and p.	4	1	2	0	0	1

Score by innings: 1 2 0 0 2 0 0 2-7. Mines: 0 0 0 0 3 1 2 0-6. Two-base hits—Shanley, Homeruns—Moberg and Shanley. Struck out—By Jackson, 11 in 9 innings; Hughes, 3 in 1; Warren, 3 in 6 innings; Stringham, 2 in 4 innings. First base on balls—Off Jackson, 1; Warren, 1; Stringham, 3. Double plays—Evans and Culp; Watson and McGuire. Passed ball—Kramer. Time of game—Two hours and 40 minutes.

## STATE COLLEGES HOLD ANNUAL CONTEST TODAY

BOULDER, Colo., May 23.—Every thing is in readiness in Boulder tonight for the annual conference track and field meet at Gamble field tomorrow afternoon, and with fair weather promised, it is predicted by the wise ones that some new Rocky mountain records will be established. Tonight this track is in perfect condition.

Colorado college, the Mines, Denver and the team from Utah university will reach here and tomorrow morning, the Aggie squad having arrived here this evening. Of the 112 contestants entered, six hold state records. The list includes: Hall, captain of the University of Colorado track team in the high jump, five feet, nine inches; Carpenter, Mines, in the hurdles; Jameson of Utah, formerly of Colorado college, in the mile run; Davis of Colorado college, in the pole vault; Bingham of Denver university, in the discus, and the University of Colorado in the mile relay race.

In the drawings today the following heats were arranged:

100-yard dash, first heat—Irland, U. of C.; Wuensch, Mines; Travers, Utah; Turner, C. C.; Vinache, D. U.

100-yard dash, second heat—Cline, U. of C.; Cheese, C. C.; Fullaway, C. S. M.; McCoy, Hopkins; Cline, C. C.

100-yard dash, third heat—Nelson, U. of C.; Stender, D. U.; Kampf, C. C.; Nye, C. A. C.

220-yard dash, first heat—Irland, U. of C.; Lager, D. U.; Fullaway, C. S. M.; Hopper, C. C.; Kampf, C. C.

220-yard hurdles, second heat—Cline, U. of C.; Turner, C. C.; Vinache, D. U.; Nye, C. A. C.; Hopkins, U.

220-yard dash, third heat—Nelson, U. of C.; Stender, D. U.; Travers, U. of C.; Maxwell, D. U.; Cajori, C. C.; Havighorn, C. C.

440-yard hurdles, second heat—Cordery, C. C.; Barth, D. U.; Golden, C. A. C.; Carper, C. S. M.

120-yard hurdles, third heat—Meizer, D. U.; Nelson, C. C.; Hopper, C. C.; Dutton, C. A. C.; Flagel, U. Hudson; Bowen, D. U.

440-yard dash, second heat—Peterson, U.; Fullaway, C. S. M.; Stock, C. C.; Turner, C. C.; Temple, C. A. C.; McNeil, C. S. M.; Vogel, D. U.

880-yard dash, first heat—Warner, C. C.; Sinton, C. C.; Clark, U. C.; Bowhay, C. A. C.; Jameson, U. Deeds, D. U.; Cheese, C. C.

880-yard dash, second heat—Trunk, D. U.; Dutton, C. A. C.; Wright, U. C.; Briber, C. S. M.; Taylor, C. C.; Cole, U.; Van Burgh, C. S. M.

## CUTLER-TERROR GAME AT 3 P. M.

Cutler academy and the High School Terrors will fight it out for second place in the southern division of the interscholastic league today. The game will be played at Washburn field beginning at 3 o'clock.

Today's game will be the last for Capt. George Dickinson as a member of the Cutler team, and if he is in good form this afternoon he should win for the academy boys, and by so doing land the institution in a position higher up in the interscholastic race than it has occupied for many years. Usually Dickinson has been a stumbling block to the Terrors' clubbers, although he will doubtless have to pitch in top form today to get away with the wind-up game. Gregg, who has had practically no experience in the box, has all the earmarks of a twirler, and in the event that Dickinson is unable to hold the opposition safe, the third sacker will be sent to the rubber.

Deal will be sent against Cutler by the high school, and if this player is in shape, the Cutlerites are likely to experience difficulty in getting around the bases. He has been nursing a sore arm for the last week, but according to reports last night he has rounded into form again and is as good as ever.

The loss of Fowler at third will weaken the Terrors' consistency, and the team will be badly handicapped for a relief pitcher in case Deal is unable to hold Cutler in check. Lineups for the game are given out as follows:

Cutler—Barnes, lf; Jones, ss; Liebernecht, rf; Tucker, 2b; Greenman, 1b; Gregg, 3b; Jackson, cf; Holden, c; Dickinson, p.

High School—Schneider, ss; Whittenberger, cf; Deal, p; V. Deal, 1b; McCrory, rf; Worth, c; Smith, 2b; Tillman, lf; Shippee, 3b.

## WESTERN LEAGUE

### HOW THEY STAND.

Club	W	L	Pct.
Denver	15	11	.573
Lincoln	15	12	.551
St. Joseph	15	13	.538
St. Louis	13	14	.481
Omaha	14	16	.467
Des Moines	13	16	.448
Topeka	13	18	.419
Wichita	10	20	.333

TOPEKA, 6: ST. JOSEPH, 5.

ST. JOSEPH, May 23.—Johnson's wildness in the fourth inning followed by Smith's single off Chellette who had relieved Johnson, gave Topeka a lead that St. Joseph was unable to overcome. A sensational catch by Forsythe was the feature.

Score:

Topeka.....1 0 0 3 1 0 1 0-6 8 1

St. Joseph.....0 0 0 1 0 0 4 0-5 1 2

Coreham and McAllister; Johnson, Chellette, McConey and G. Hirth. Ret. bases—Johnson, 2; Chellette, 2; Coreham, 3.

Three-base hit—McLary, G. Watson. Two-base hit—Forsythe. Struck out—By Johnson, 3; Chellette, 1; McConey, 3; Coreham, 2. First base on balls—Off Johnson, 2; Chellette, 2; Coreham, 3.

WICHITA, 3; DES MOINES, 0.

DES MOINES, May 23.—Middleton's hitting and base running and superb pitching by Ellis won for Wichita. Sweet was relieved in the first inning by Faber. Almost 2000 college students attended the game, guests of Secretary Fairweather, who is a law student at a local university.

Score:

Des Moines.....0 0 0 0 0 0 0 0-0 0 0

Wichita.....0 0 2 0 0 0 1 0-3 8 2

Sweet, Faber, Lakoff and Shaw; Ellis and Castle.

Two-base hit—Hughes. Three-base hit—Leonard. Double play—By Off Sweet, J. Ellis, 1. Struck out—By Faber, 6; Lakoff, 1; Ellis, 1. Stolen bases—Fox, Reilly, Leonard, Middleton, 2.

SIOUX CITY, 6; LINCOLN, 3.

SIOUX CITY, May 23.—Sioux City and Lincoln played fast ball today, both hitting freely, but the locals bunched effectively in the fifth inning, getting three runs and a lead that many Brown and Ehmman divided honors, although the Sioux City hurler had the shade in scattering the hits.

Score:

Sioux City.....1 0 0 2 3 0 1 0-6 11 4

Lincoln.....0 0 0 1 1 0 1 0-3 1 1

Broyn and Rapp; Ehmman and Barker. Two-base hits—Lloyd, Cooney, McCormick, Harbour, Davidson, Cobb. Double plays—Smith, Cooney, Woodums, Davidson and Woodums. Struck out—By Brown, 2; Ehmman, 1. First base on balls—Off Brown, 2; Ehmman, 2.

OMAHA, 2; DENVER, 1.

OMAHA, May 23.—Closman was better than Wolfgang in a pitching duel today, and Omaha won the first game of the series from the champion Denver team, 2 to 1. Three double plays featured the work of the local ace.

Score:

Omaha.....1 0 0 0 0 1 0 0-2 7 1

Denver.....0 0 0 0 0 0 0 0-1 6 0

Closman and Johnson; Wolfgang and Spahr.

Two-base hits—Grubb, Quillin. Three-base hit—Johnson. Double plays—Justice to Johnson to Kane; Closman to Justice to Kane; Shippee to Kane. Struck out—By Closman, 8; Wolfgang, 8. First base on balls—Off Closman, 2.

## GEORGES CARPENTIER, THE CLEVER FRENCH BOXER, WHO TACKLES WELLS TOMORROW

A late photograph of Georges Carpentier, the French champion, who is scheduled to battle Bombardier Wells, the English heavyweight, at Ghent, Belgium, tomorrow night. Carpentier will give many pounds in weight to the Bombardier, but his backers declare that he will go into the ring at the weight at which Bombardier fought his biggest battles, and the odds are freely laid on the French fighter.

## TRIVERS AND KRAMMER MEET IN FINALS TODAY

NEW YORK, May 23.—The issue for the Metropolitan golf championship title will be fought out tomorrow between Jerome D. Travers, the present champion, and Alfred D. Krammer, the Fox Hill golf club course.

Travers, by steady play, has easily defeated every one so far opposed to him. In the third round, today, playing against Fishburn, coach, Travers after winning by seven up and five to play, played out the brothers and made a new amateur competitive record of 70 for the course.

Later, Travers defeated Oswald Kirkby, the New Jersey state champion, by 2 up in the semifinal.

Krammer, against E. M. Wild of Cranford, N. J., four up and three to play, in his semifinal match tomorrow.

## BOULDER, 3; AGGIES, 1

BOULDER, Colo., May 23.—The University of Colorado baseball team defeated the Colorado Agricultural college team by a score of 3 to 1, after a hotly contested game.

Score:

Boulder.....0 0 0 1 0 0 0 0-2 4 2

Aggies.....0 0 0 0 0 0 1 0-1 4 5

Williams and Sommer; Tucker and Wilson.

## HIGH SCHOOL FACULTY DEFEATS SENIORS, 15-13

The High school faculty defeated the senior class yesterday afternoon in the annual ball game by a score of 15 to 13. It is said that this is the first time since this game has become an annual event that the faculty has won.

## SNOWDEN BACK AT OLD PLACE IN YALE SHELL

NEW HAVEN, Conn., May 23.—With Captain Snowden back at stroke in the first eight, after a brief absence from the position in which time he had opportunity to observe the working of the boat, the Yale varsity and other crews are being given their final preliminary drills here, preparatory to leaving, six days hence, for their quarters at Gates Ferry, where the finishing work will be done for the race with Harvard next month. About 30 men will be taken to The Thames.

## STEELE, 11; CHEYENNE, 5

In a one-sided contest the Steele team defeated the Cheyenne aggregation, 11 to 5, yesterday. The pitching of Clark of the Steele team was the feature of the game. The outcome gives Steele the right to play the Garfield team for the championship of the third division league. Both teams have been playing a good game this year and the final mixup ought to be a good one. The batteries in yesterday's game were: Steele, Clark and Cooke; Cheyenne, Pick and Bunney.

## COLLEGE BASEBALL

Notre Dame, 6; Fordham, 3.

Nebraska, 1; Ames, 4.

Kansas University, 2; Missouri, University, 1.

DePaul, 6; Indiana, 4.

## JIM COFFEY TOO FAST FOR FLYNN

NEW YORK, May 23.—Two heavy-weight boxing matches were staged at Madison Square Garden tonight. George Rodell, "The Boer," beating Soldier Kearns in eight out of 10 rounds; and Jim Coffey, "The Dublin Knight," outpointing Jim Flynn of Pueblo after 10 rounds.

Coffey exhibited much cleverness. Flynn at times standing still while Coffey rained a shower of lefts and rights to his face and head. Flynn did a lot of rushing and worked mostly for the body. He had his opponent backing away in the last rounds, but Coffey's cleverness at long distance work was too much for the western man. Coffey weighed 193 pounds and Flynn 181.

In the other bout, Kearns weighed 202 pounds and Rodell 185. Rodell depended on his left hand nearly all through the fight. Kearns knocked Rodell down for a count of five with a right on the jaw in the second round. At the bell Kearns' face was bruised and swollen and his left eye almost closed.

## Fishing Bulletins

With the fishing season opening tomorrow, the Colorado Midland railway yesterday issued the following bulletins on conditions at many of the favorite haunts in Colorado:

South Fork of the South Platte River.

Hartsell, Colo.—Water low and clear; fair condition for fly or bait fishing; weather clear and pleasant.

Antero, Colo.—Water low and clear; fair condition for fly or bait fishing; weather clear and pleasant.

Twin Lakes, Clear Creek and Lake Creek.

Granite, Colo.—Twin Lakes—Fishing fair; water very low and clear; weather clear and cool.

Clear Creek—Fishing fair; water high and muddy; weather clear and cool.

Clear Creek Reservoir—Bait fishing good; water very low and clear; weather clear and cool.

Lake Creek—Bait fishing fair; water high and muddy; weather clear and cool.

Frying Pan River.

Nast, Colo.—Water in fair condition; fishing with bait should be fine; weather clear and cool.

Norrie, Colo.—Water in fair condition; fishing with bait should be fine; weather clear and cool.

Sellar, Colo.—Water in fair condition; fishing with bait should be fine; weather clear and cool.

Ruedi, Colo.—Water high and clear; weather pleasant.

Thomastown, Colo.—Fishing fair; water high and rolly; weather clear and cool.

Basalt, Colo.—Frying Pan river high and muddy; fishing should be fair by Sunday, if weather settles.

Roaring Fork River.

Basalt, Colo.—Roaring Fork river high and muddy; bait fishing should be good by Sunday; weather cool.

Lime Creek.

Thomastown, Colo.—Fishing fair; water high and rolly; weather clear and cool.

Lake Ivanhoe.

Ivanhoe, Colo.—No fishing; lake still covered with ice.

Cottonwood Creek and Lake.

Buena Vista, Colo.—Water high and rolly; conditions favorable for bait fishing.

## WEATHER MAY HOLD OFF BIG BOAT RACE TODAY

ITHACA, N. Y., May 23.—Weather conditions tonight were decidedly unfavorable for the spring day events and the Harvard-Cornell races tomorrow. Rain prevented the Harvard and Cornell crews from going to the course today. The races and freshmen regatta of both colleges are in splendid condition.

## FIGHT ORDINANCE VETOED

SAN DIEGO, Cal., May 23.—Mayor Charles O'Neill vetoed today the prize fight ordinance permitting 20-round contests, passed by the city council Wednesday. In a communication the mayor said he favored stricter penalties for violations of the ordinance.

## PENN. ROWS ANNAPOLIS.

ANNAPOLIS, Md., May 23.—Pennsylvania'sarsity and freshmen eight arrived in Annapolis this afternoon and will open the local rowing season tomorrow in races against the Navy first crew and freshmen eight.

There also will be a four-oar event between the Middletown and the Annapolis Boat club, third crew and the Annapolis Boat club of Baltimore. All compete.

## HARRISON ISSUES CHALLENGE TO KING

Kid Harrison came across with a challenge last night in which he declares that he hopes to arrange a meeting with Billy King, champion of the state middleweight title. Harrison says he will meet King and place any time and either at the middleweight limit or at catch weights.

San Lake, 6; Helena, 5.

Oregon, 5; Missouri, 5.

Great Falls, 10; Butte, 5.

## SWEEPSTAKE HANDICAP. C. S. GOLF CLUB TODAY

One of the most important competitions on the early season card at the Colorado Springs Golf club is the 18-hole sweepstake handicap, scheduled for this afternoon. Entries should be telephoned to W. W. Campbell as early today as possible.

## GARRETT SECOND IN EMPORIA CLUB SHOOT

Special to The Gazette.

EMPORIA, Kan., May 23.—The Emporia Gun club held its annual tournament here today, with a large number of well-known trap shooters in attendance. High professionals were Welsh, Jim, W. Garrett of Colorado Springs and Elliott, in the order named. High amateurs were Wilson and Cairns.

## PHILADELPHIA, 4; CINCINNATI, 1

PHILADELPHIA, May 23.—Philadelphia won the third straight game from Cincinnati here today, the score being 4 to 1. The visitors escaped a serious through a homerun drive into the bleachers by Almeida. Three double plays were made by the home team. Only 30 batters faced Brennan, Bercher, who made a pair of doubles, and the only addition to the infield, to get as far as second base. Both times Bercher was left at second, he being the only visiting player to be stranded on the circuit. Philadelphia tied the score in the fifth on Cravath's double, an error by Tinker and a double play. In the seventh, Cravath drew a pass, took third on Brown's wild throw to catch him napping, and scored with Luderus on the homerun drive over the right field fence. Suggs took Brown's place in the eighth inning and Knabe scored on his single and Magee's double.

Today's game wound up Philadelphia's stay at home in which the team won 15 contests and lost three.

Score:

Cincinnati.....0 1 0 0 0 0 0 0-1 7 2

Philadelphia.....0 0 0 0 1 0 2 1-7 0 0

Suggs and Clark; Brennan and Knabe.

Two-base hits—Bercher, 2; Cravath, Magee, Homeruns—Almeida, Luderus. Double plays—Tinker, Berghamer and Marsany; Luderus and Knabe; Lobert, Knabe and Luderus; Doolan and Luderus. First base on balls—Off Brown, 2; Brennan, 1. Struck out—By Brown, 1.

## PROGRESSIVE POLITICS

THE attitude of the three political parties toward one another in the nation at large is reflected with a fair degree of accuracy here in Colorado. Both of the old organizations are flitting desperately or trying to flit with the new party and offering extraordinary inducements for a union of forces which in effect, however, would mean absorption. But fortunately it happens that the Progressive party of Colorado is no more inclined to listen to these blandishments than is the Progressive party of the nation, which is another way of saying that it is perfectly satisfied with its present status.

In the last legislative session the Progressive members, although in a minority, exerted strong influence in shaping and passing all of the best laws enacted. Almost without exception these men proved themselves fully worthy of the confidence of the people, and showed by word and deed that they were there for the definite purpose of making good their platform pledges. And this is more than can be said for the Republicans, or for a large majority of the Democrats.

Throughout the state the party organization has been strengthened since the last election and the personal enthusiasm and loyalty of its members are greater than ever. To the careful observer of political conditions it is a safe assumption that if an election were held tomorrow on the issues of the contest last fall the Progressive vote would be at least 50 per cent greater than it was then. And there is equally good reason for believing that when the election does come, a year from next fall, Colorado will elect at least a part of its congressional delegation from the Progressive party, and a much larger proportion of its legislative membership than was the case last year.

## FLAGLER AND FLORIDA

HENRY M. FLAGLER, who died in Palm Beach a few days ago, was famous for two reasons. He was one of the original group which included the Rockefellers and the late H. B. Rogers, who organized the Standard Oil Company and accumulated the most colossal fortunes in America.

But Mr. Flagler was even more famous because of what he did for Florida. When he first went to that state in 1885 to recover from an attack of illness its only real asset was a splendid winter climate. Its resources were wholly undeveloped. It was without railroads and its people were, for the most part, content to sit in the sun and dream their lives away.

Flagler became interested in the possibilities of Florida as a winter resort, so interested that he made it a hobby. He spent millions of dollars building railroads and establishing a chain of hotels of a type theretofore unknown in this country. His final achievement was the railroad connecting the mainland with Key West, some sixty or seventy miles out at sea.

And when he had finished the transformation of Florida was complete. He made it a fashionable and highly prosperous winter resort which is frequented every season by a class of people who previously had gone to the Riviera in winter. It probably would be impossible to estimate the amount added to Florida's taxable wealth not only by Flagler's direct expenditures but by the impetus which his example gave to the development of the state as a whole.

Think what it would mean to Colorado Springs if it had a citizen who would do for it on a smaller scale what Flagler did for all Florida! The opportunity for development is even greater here than it was in Florida twenty-five years ago. General Palmer made a splendid beginning; he gave Colorado Springs its start in the right direction, and its present prominence is due largely to his efforts.

General Palmer has passed away and there is no one to take his place, but a greater opportunity than his awaits the man who, given the means, also has the imagination and the desire to accomplish great things which Flagler showed when he

set to work to transform Florida from a tropical wilderness to a tropical paradise. With its advantages of climate, scenic environment and natural beauty, this place could easily be made as a summer resort what Palm Beach is as a winter resort. It would need a man not only with millions but with plenty of courage to do it, but in the long run it would pay, just as Flagler's Florida ventures paid him.

## EASTONVILLE LINE REOPENED

MORE than a year ago the Colorado & Southern Railroad company discontinued the operation of the portion of its Eastonville branch between this city and Eastonville. This inflicted no little injury on Colorado Springs, for it deprived the farmers of the richest portion of the county of their only means of getting to this market. The line was continued in operation from Eastonville to Denver, so the farmers of a section, which is naturally tributary to Colorado Springs, were almost compelled to do their buying and selling in Denver.

Ever since this happened the Chamber of Commerce has endeavored to have the line reopened, and its efforts have at last been successful. The old line between Falcon and Colorado Springs is still closed, but train service has been established by an arrangement with the Rock Island, which connects with the Eastonville line at Falcon. The people of northeastern El Paso County now have as good train service as before the old service was discontinued a year ago.

This is a matter of no little importance commercially, because it is from that section that most of the dairy products in the county are shipped. The business is already large and is steadily growing, and it properly belongs to Colorado Springs rather than to Denver.

## NATIONAL AID FOR GOOD ROADS

FORMER SENATOR BOURNE of Oregon has a plan for Federal aid for road building which would involve the expenditure of three billion dollars in a period of fifty years. This sounds, and is, ambitious, but it means an annual appropriation of only six million dollars, or eight and one-third per cent of the government's total expenditures. The army and navy alone cost the taxpayers three hundred million dollars a year.

Mr. Bourne would divide the expenditures of the various states on the basis of area, population and taxable wealth. It is true that the local government, both state and county, are now doing vastly more road building than ever before, but the problem is so vast and the economic loss caused by bad roads is so great that Federal aid certainly would not be misplaced.

### MAKING THE YOUNG CRIMINALS.

From the New York Tribune.  
District Attorney Crosby of Kings county, New York, who has been police commissioner as well as prosecutor, says a majority of criminals today are young men, many of them mere boys. He attributes this to two chief causes—the influence on their minds of news of crime as printed in the daily papers and the fact that little provision for innocent amusement is made to take care of the leisure of the young.

Mr. Crosby's opportunities for observation and study have been unusually good, so it would be interesting to learn how many cases he knows of where a predisposition to crime could be readily traced to the newspapers. Facts about crimes discovered, efforts to capture the miscreants, trials of prisoners and their sentences, which are a large part of the news of crime printed, do not inflame the ordinary mind to emulation. On the other hand, the youngster who hangs around the street corner because there isn't even an available vacant lot for a baseball game, who graduates into a street car crowd and gangs, and who because he has a yearning to take care of his desire for competition and physical exercise begotten of youth and animal spirits, doesn't pay a lot of attention to the newspapers. If he reads, it's the sporting page.

Too few public playgrounds, too few recreation centers, too few gymnasiums minus a boiler-then atmosphere, too many cheap dance halls and saloon back rooms are responsible for many and many a young criminal. If he read some of the crime news he might refrain from his first crime.

### AN HONEST FRIEND OF PEACE

From the New York Sun.  
It is not always the good fortune of The Sun to agree with Dr. Lyman Abbott, but it agrees thoroughly with his sound and patriotic opinion of national self-defense, of a competent army and navy, opinions for which certain amiable bothards of the American Peace society are said to have had cast him out of the membership and an honorary vice-presidency thereof.

Dr. Abbott hopes for peace among nations and among men, but he is too sensible a man and too shrewd an American to be duped by counsels of perfectionism, and he is too realistic to see the place in the world of his country and leaving her naked of present and future protection on account of any illusive millennial hope or dream. He knows that in the present wolfish state of man weakness invites attack and power is the best guarantee of peace.

No doubt Dr. Abbott prays for as he follows a quiet and peaceable life, but he does not find the world able to do without policemen as yet.

### BREECHES AT YALE

From the New York Tribune.  
Who knows when the Yale seniors may lead a willing nation through their experiment with knickerbockers?

Everybody has agreed from the start that trousers of the stovepipe variety are the most unbecoming article of clothing ever designed—derby hats and bustles alone excepted. Yet just through sheer laziness and inaction men have come on wearing them year after year, decade after decade.

Why should not the Yale seniors be the prophets of a more beautiful day? Male legs have improved considerably through the rush after fresh air and can well stand revolution in the last majority of cases, breeches, with or without buckles, would be equally

admirable on the stock exchange, on the golf links and in the ballroom. The change would be cheerful, comfortable, entrancing.

Will they for men? be the next big rallying cry to sweep the nation?

### AMERICANS AND THEIR STOMACHS.

From the New York Tribune.  
The fine arts are all making progress in America, and the noble art of eating along with the rest. Still, who will contradict Mme. Sarah Bernhardt when she tosses her hands and exclaims: "What is it you Americans eat that you call food? It is abominable. No salt, no pepper, all grease and little dishes that annoy one. You are a great people, but you have no respect for your stomachs."

We have heard similar complaints from how many American homeward bound from an intimate examination of the native land! Good food in public places is to be had in spots the country over, if you know just where to go. But the spots are pretty small oases compared to the deserts of barren lands through which you must pass.

Who does not remember those "little dishes that annoy" to which Mme. Bernhardt so feelingly refers? No boarding house in or out of New England used to be complete without them. Your dinner looked like a hen with baby chicks; so surrounded was your dinner table with little saucers of food. It may be objected that this criticism is purely aesthetic and has nothing to do with food or digestion. But therein lies the root of our trouble—the things are really inextricably related, and only when we look upon eating with some of the real artistic zest of Mme. Sarah's countrymen shall we better our lot. Everything should contribute to the perfect glory of a good meal.

If Mme. Bernhardt can inspire a Society for the Prevention of Cruelty to the American Stomach she will be entitled to the thanks of the nation.

### THE CONTEMPLATIVE WHITE MOUNTAINEER.

From the Rochester (N. Y.) Courier.  
George E. Rewitzer contemplates purchasing a bicycle.

### A MILWAUKEE EVENING.

From the Shubert Theatre Program.  
Act I.—Drawing room of Ward's town house.  
Act II.—The same evening. One week later.

### THIS MAY REFER TO THE ORIENT.

From the Illinois State Register.  
Rex Underwood is the only violinist who seems to be using the "Orientele." It is a Russian composition by Gai and is just a simple oriental melody, full of the romance and mysticism of the orient.

### THE JINGLED AND DELIRIOUS CRITIC.

From the Cincinnati Commercial-Tribune.  
The most binding were the dazlings of her coloratura "sparkling and the exquisite 'Cio Cio San,' and the undying eminent 'quarter note' tone, peaking rising mightily and supremely out of a very sea of rising effects in changing ever-shifting color and timber.

### SOME MEETING THAT!

From "Societies and Clubs."  
After the business session was over all sat down to a bountifully supplied table and talked over the plans for the coming year. After all were filled the balance of the evening was spent in card playing and other amusement until all had to run to catch the last car for home. Everybody voted it a most enjoyable evening and went home feeling that they were proud of belonging to such a good order.

### A SPLENDID TIME WAS HAD!

A social item that wasn't printed yesterday.  
In honor of Mr. and Mrs. John Jones, who were married last Saturday Evening, a very pleasant evening was spent Monday evening on the lawn at their home. The trees were beautifully decorated with Japanese lanterns, Sweet Pees and nasturtiums Mrs. Jones formerly Mrs. Julia Brown proved to be quite entertaining while Mr. Jones made judicious new friends and acquaintances and was very hospitable in his new office. Many beautiful and new presents were received from all friends and with their warmest congratulations for a long life, Success and True Happiness in the future. Those who numbered themselves among the guests did justice to the beautiful Moonlight, Open air refreshments, the latter being served by Mesdames Black, White and Green. A number of amusing games were played until a late hour and after thanking their kind hostesses for the delightful evening spent, they turned their footsteps homeward withing all a fond goodnight.

## Tomorrow People

By RUTH CAMERON.

When tomorrow comes it still will be tomorrow.

"We are going to be so happy next fall," a friend of mine told me the other day. "We are going to move into one of those beautiful apartments they are building on the avenue, and I'm going to buy the guest room furniture we have been saving up for so long, and at last I shall be able to entertain my friends as I want. It seems to me I can hardly wait for fall to come."

As I jog back across my friendship with this young woman, I remember a time when she could "hardly wait" for the day to come when she and her husband were to leave the place where they were boarding and really go to house-keeping in their first little apartment, and before that, a time when she could "hardly wait" for her wedding day, and before that a time when she could "hardly wait" until July for the summer vacation which was planned for in the spring.

And when tomorrow comes, it still will be tomorrow. There are a great many people in the world who are always about to be happy, by the tomorrow of their fulfilled anticipations they are sure they will find happiness, and they are so intent upon looking forward that they quite forget to realize that today is the tomorrow of yesterday's anticipation.

The very best time to do kind deeds is today; the very best time to start good undertakings, is today; and the very best time to be happy is today, this hour, this minute.

"If an inhabitant of some other planet were to visit America," says Orison Sweet Marden, "he would probably think that our people were all on route for something beyond, some other destination, and that while they happen to be living is merely a way station where they unpack only such of their luggage as they need for a temporary stay. They are not really settled today, do not really live in the now, but they are sure they will live tomorrow or next year when business is better, their fortune greater, when they move into their new house, get their new furnishings or their new automobile, then they will be happy. But they are not really happy today."

That is a great indictment of the American people and I am afraid a just one. It is peculiarly our national tendency to be in too much of a hurry getting ready to live, to have time left for living itself. "Manana" is as much our falling as the Spaniards, only in a far different sense. Anticipation has its uses, but it also has its dangers. Look forward to tomorrow's joy by all means, but don't look forward so eagerly that you miss the delights of today. Be happy this day, this hour, this minute. You are sure of that happiness.

## Galveston

By GEORGE FITCH,  
Author of "At Good Old Sluagh"

Most cities are like each other, varying only in the luxury of their new hotels and the size of their census figures and union depots. But Galveston made itself and there is no duplicate.

Galveston has 37,000 people. It used to have 23,000 but on September 8, 1900, the Gulf of Mexico rose up over it and drowned 6,000 of its people. The next morning Galveston was a soggy wreck and the nation began collecting enough money to bring the survivors

"Twiddled her fingers at the gulf and dared it to come again."

To some safe place and let their start a new city. The Galveston folks who were left were all Texas people and instead of being discouraged they got mad. Galveston lies on a long narrow island shaped like a hat pin and about as slender. It was so low that when there was an unusually high tide the sea wandered down the main street and called for mail at the postoffice. Galveston built a sea wall 17 feet high and 17,500 feet long. Then she raised herself up to the top of the sea wall, twiddled her fingers at the gulf and dared it to come again. "How are you going to discourage a town like that?"

Galveston is little but mighty important. The ships of the earth speak to her behind Galveston island on which Galveston stands and load to her. It takes fifty steamship lines to carry away Galveston's cotton. The city is visited by more tramps than any other city in the world but it doesn't mind. It has high schools, hospitals, libraries, and they make her tonnage figures bigger than those of any American city except New York.

Galveston has had quantities of history. It has been under six flags—Spanish, LaFitte's black flag, Mexican, Texan, United States and Confederate—and has dipped into four or five wars a little ways. Its citizens have grown rich and when they die they leave high schools, hospitals, libraries, monuments and drinking fountains to the town. It has the finest beach in the country and the climate is so even that the merchants sell thermometers with the temperature painted on the glass and the citizens don't know the difference.

Galveston's six bridges on the main land were blown away in the great storm, so she built an isthmus instead. She has 12 square miles, but better than that, she has several square miles of mission land which govern the city on the commission plan and save \$100,000 a year with which to pay interest on the city bonds.

Galveston is a little but she has demonstrated to the world that she can be just as good when the whole ocean jumps on her.

## THIRTY INDICTMENTS RETURNED IN DENVER

DENVER, May 23.—Former Alderman James O'Driscoll was indicted by the grand jury in the district court today on a charge of attempted bribery.

It is alleged that O'Driscoll offered a bribe to A. A. Blakely, a member of the fire and police board.

Another indictment returned today charges Horace Bennett, owner of a hotel, an extensive estate near Livingston, formerly owned by United States Senator Wolcott and the late Thomas F. Walsh, with selling milk from diseased cows.

### ABSCONDING BANKER DIES IN VALPARAISO

BOSTON, May 22.—The death at Valparaiso, Chile, of Frederick T. Moore, former assistant receiving teller of the National Bank of Commerce of this city who absconded 14 years ago with \$50,000 of the bank's funds, was reported here today.

Moore died from Boston in 1899, when irregularities were found in his books. He was arrested in Valparaiso a year later on a charge of embezzlement but the courts refused extradition. During his residence in Valparaiso he became one of the leading business men of the city.

## Appreciation Magic Music of Great Ysaye by Former Pupil

(This criticism by Louis Persinger on the Ysaye concert last night is of double interest locally—first because Mr. Persinger, a Colorado Springs boy, was formerly a pupil of Ysaye; and second, on account of the international fame as a violinist Persinger himself has attained.—Editor's note.)

By LOUIS PERSINGER.

Eugene Ysaye, the most masterly violin genius of our day, delighted a discriminating, enthusiastic audience at The Burns theater last night with one of his inspiring recitals. Many years have passed since Ysaye was first heard in Colorado Springs, but the name Eugene Ysaye still stands for all that is noble and uplifting in music, and none of the young Siegfrieds of the violin of recent years seem to be able to approach the lofty height which he has attained—a mountain where this musical giant rests alone.

The moment that he steps onto the stage one has a feeling of confidence in what is to come. The dignity, the absolute lack of anything resembling pose or affectation, the evident intellectual brightness of the man—all command admiration. Ysaye is one who has never played to the gallery. One who has always been happy to help along struggling talent, one whose own playing has continuously wrought for a greater, broader, freer artistry. There are many who could tell tales of Ysaye's whole-hearted, "grand" way of doing things in general, there are many who know the incidents of his career in which the master has retreated into the background, always ready to assist the other fellow, and I believe that this all-around greatness has stamped itself indelibly into his music.

Artist Stands Alone.

There have been many artists—great ones and mediocre—who have attempted to solve the emotional depths of that wonderful "Poème" of Chausson, for instance, but where is the one who imbues into it that potent, appealing beauty of an Ysaye's art? Is there another who gives the work with that poignant, emotional intensity that makes it seem almost a part of the artist's very being? He invests the "Poème" with a sort of religious ecstasy and mysticism which have the most completely soul-satisfying effect.

Ysaye makes an Adagio, a creation of beauty long to be remembered, there is something so majestic, so utterly beyond the everyday violin playing of this matter-of-fact old world when to begin to spin, out of that wonderful, heart-wrenching tone, the manner in which he drew out the first caressing tones of the Adagio of the Brahms concerto would have been enough itself to have shown us that he was the same Ysaye of old; the same Ysaye who makes one weep with the grand simplicity of his playing. And again, where can one find, among all the violinists of the present day, one who attacks the last movement of the concerto with such a glorious, electrifying sweep of the bow? Is that magic bow really only a short yard long, or is it our imagination which makes it

appear to sweep above the strings in a seemingly never-ending line?

Almost His Own Creation.

The "Kreutzer" sonata Ysaye has made almost a creation of his own, and his performance last night revealed again those qualities which have made his interpretation of the work a whole of absorbing beauty. Depth of feeling, impetuous flashes of temperament, the masterly grandeur pervading the first movement, the exquisite simplicity of his handling of the theme of the Andante, the humor of the closing Presto—all were woven into one pattern, a pattern which brought us nearer to the conception of Beethoven than many a stiff, so-called "scholarly" rendering would have done. There are a few who disagree with Ysaye's interpretations of Beethoven and the other great German classics, but I venture to say that there is not one among them who could recreate such a work, and make of it such pure beauty as Ysaye does. There are certain parts of the Beethoven concerto, for instance, where Ysaye has touched heights of grandeur, emotion—what you will—which for one, will always carry with me as the greatest music I have ever known.

The closing number of the program was Saint-Saens' familiar Rondo Capriccioso, in which the master disclosed all those qualities of temperament, imagination, brilliancy, depth and finesse which have made him the great virtuoso-musician of our time. He could have given any number of encores, had he chosen, but contented himself with playing the lovely G major Romance of Beethoven, after the Chausson "Poème."

The assisting pianist, Camille Decres, received his merited share of applause, especially after his admirable work in the sonata. Further along in the program he donated a group of solo, revealing his own artistic qualities—a thoroughly French delicacy was perhaps the most noticeable of all. After insistent applause he responded with an encore.

THIS INTERESTS EVERY WOMAN

A family doctor said recently that they have female trouble, but when he treats them for their kidneys and bladder, they soon recover. This is worth knowing, and also that Foley Kidney Pills are the best and safest medicine at such times. You cannot get hotter, prurient itching for backache, weak, dragged-out feeling, aching joints, irregular kidney and bladder action and nervousness due to kidney troubles. Try them. They are tonic in action, quick in results. Robinson Drug Co. Adv.

## He Had 150 Jobs; Now Wants to Work for U. S.

WASHINGTON, May 23.—A deluge of applications for appointments to the United States secret service continues to overwhelm Secretary McAdoo, although there are no vacancies.

One man, who believes the government needs him in its detective work, sent the secretary a list of about 150 occupations which he has filled during his life time to prove he was competent to undertake any kind of sleuth work.

These were some of his "trades": Stage driver, laborer, school teacher, proprietor and editor, doctor, rough carpenter, mail carrier, lumber trade, waiter and bartender.

Two women in Kansas City, professional nurses, built, nervy and muscular, caught a sneak thief in their home and beat him so thoroughly that he could not give his name to the police for 24 hours.

## DAREDEVIL PAIR DRIVE THROUGH OPEN DRAW BRIDGE AT 60 MILES AN HOUR.

These photographs, taken at Spearlight, N. J., show Rodman Law, professional daredevil, and Miss Grace Hall, who drove a motorcycle through an open drawbridge at the rate of 60 miles an hour to furnish a thrill for a new moving picture sensation. The upper photograph shows the pair just as they let the machine shoot from under them. The lower picture was taken before the start.

## REMEMBER That We Close at SIX 'TUNK'! Instead of Keeping Open 'till Nine.

Again we ask our customers to remember this fact as well as all of those who have short hours and favor short hours for others. We believe that most of our "customers" are remembering this and adjusting their shopping accordingly. These we wish to thank, for their support of our campaign for shorter hours.

## Hibbard & Company

"The Traveler's Store" 17-19 South Tejon "Try Hibbard's First"

## C. B. Corsets A' la Spirite Some of Our New Models

"C. B." Corsets this season are the very best that we have ever had in that line. The new models are perfectly in accord with present style tendencies and assure the wearer of ease and comfort by their perfect fit. The values, too, are exceptional as the very highest class of materials have been used in their construction. Let us fit one of these models to you—you will enjoy wearing it we know!

At \$3.50 a good model for average women. Low bust, long hip and extension back, gored with elastic webbing, giving special support to the back of the figure; made of fine coutil.

Another \$3.50 model is for medium figures, made of batiste in a low bust, long hip and back effect; rubber gorges

inserted over the abdomen three pairs of hose supporters attached.

Our \$3 model a good warm weather corset of net, medium bust, long hip style, with six hose supporters attached.

The \$2.50 style for full figures, made of coutil with low bust and long hips, strong spoon shaped front-steel, six hose supporters.

At \$2.25 the slender figure model is with medium low bust, long hips, without the usual bothersome side boning over the hip.

For \$1.50 four good models for the short, slender, medium or stout woman correct in every detail.

For \$1—three models for as many types of figure, unusual style for corsets at the price.

## Toilet Goods Day at Hibbard's

Specially priced items with other low priced articles that we are featuring for Saturday:

Pompeian Massage Cream, 50c size, 39c; 75c size, 59c; \$1 size, 79c.

Sempre Givine, 45c.

Canthox Shampoo Powder, 45c.

Menthofatum, 21c.

Mum, 21c.

Hughes' "Ideal" Hair Brushes, rubber air cushion, priced, single bristle at 79c; double bristle at 89c.

"Zel" warranted Tooth Brushes, transparent handles, "you get a new brush free if one sheds its bristles" 25c.

Kolynos Dental Paste, 23c.

Pelico Dental Paste, 45c.

Woodbury's Facial Soap, 19c.

Cuticura Skin Soap, 21c.

Lisle Union Suits { 59c This spring-needle weave gives exceptional elasticity, the fineness of the thread assures coolness, the "3-piece cut" makes it perfect fitting, "three essentials." Low neck sleeveless style with light knee or lace edged umbrella knee.

## VESUVIUS SHOWING VOLCANIC ACTIVITY

NAPLES, May 23.—Vesuvius during the night and this morning showed renewed signs of activity. One eruption was accompanied by a slight earthquake shock.

A new and large central fissure has opened round the crater from which ashes are emitted. The ashes, however, have not yet gone beyond the limits of the volcano.

## Juror Snored; Now Asks a New Trial

LOS ANGELES, Cal., May 24.—"A loud and raucous snore," formed the basis for a motion for a new trial filed today in behalf of Lee Rial, alleged head of a "national bunco syndicate," who was convicted last week of having swindled C. F. Friesz, an Illinois farmer out of \$5,000 through a fake horse race.

The defendant asserted he had not been given a fair trial because a juror, George H. Peck, a millionaire realty operator of San Pedro, had fallen asleep and snored repeatedly during the progress of the case despite apparent efforts to keep awake by chewing gum and fanning himself.

It was asserted that on a single day Peck had fallen asleep as many as 13 times. Judge Finlayson, who had set today as the time for imposing sentence upon

## Deaths and Funerals

The funeral of Edgar King, aged 88 years, who died Thursday afternoon at his home, 418 East Kiowa street, will be held at a service tomorrow afternoon from the undertaking rooms of Fairley and Law. The body will be buried in Evergreen cemetery.

Mary J. Benjamin, aged 61 years, died here yesterday morning. The funeral will be held at 2 o'clock this morning from the undertaking rooms of Fairley and Law, and the body will be taken to Cheyenne, Wyo., for burial.

The funeral of Antonio Rigo of Papeton will be held at 2 o'clock this afternoon from St. Mary's church.

## Good Reason for His Enthusiasm.

When a man has suffered for several days with colic, diarrhoea, or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially in this case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by all dealers.

## Societies and Clubs

The Woman's Literary club will hold its annual meeting at 3 o'clock this afternoon at the bungalow of Mrs. George Eklund in Broadmoor.

## NO MORE SLUMMING IN PRESIDENT'S AUTO

WASHINGTON, May 23.—"Slumming" in the automobile of the president of the United States almost has ceased as a novelty and today Mrs. Archibald Hopkins, society woman reformer and friend of Mrs. Woodrow Wilson for the second time in two days, will conduct a party of investigators to the squalid quarters of the capital in a White house car. This luxury of travel was made possible through the generosity of Mrs. Wilson, who placed the car at the disposal of Mrs. Hopkins. Mrs. Hopkins' party yesterday were Senator Holmes of New Hampshire, Mrs. Owen, wife of the senator from Oklahoma and Mrs. Fomerne, wife of the senator from Ohio.

The investigations are being conducted under the direction of the woman's department of the national civic federation. The investigators now are at work on legislation, which they will press in congress looking to the elimination of the alleys and narrow courts that at present disfigure certain sections of the capital. This legislation, it is expected, will be sponsored by Representative Kahn of California.

Locust has the greatest tensile strength among ordinary woods, 2,200 pounds to the square inch.

## THE MOST EXTRA- GANT QUEEN

From the New York Journal.  
Vienna—Queen Wilhelmina of Holland is the most extravagant dresser among the queens of Europe, according to a statement published in an Austrian newspaper. She spends \$24,000 a year on personal attire.

The queen of their comes next with \$16,000. A considerable part of which is expended on lace.

Empress Victoria Augusta devotes \$12,500 to her toilettes, which are invariably ordered in London or Vienna.

The czarina is the least luxurious of royal consorts. Having a predilection for black, and a severe style that obviates trimming and accessories, her dressmaking bills are almost insignificant.

## A POWERFUL NEW EXPLOSIVE

From the New York Times.  
PARIS—Important results are expected of the remarkable discovery by Professor Darsonville of the College of France of a new explosive 10 times more powerful than dynamite, which has just been made public at Lezardre. It gets its force from the liquefaction of gases. Darsonville, it is probably will be called, consists simply of a mixture of lampblack and liquid gas. Experiments made with it in quarries near Paris are said to have given perfectly satisfactory results.

A school of town planning has been established by the University of London near that city.

## ROBERT EDSON, ACTOR, IS SOMEWHAT IMPROVED

LOS ANGELES, May 23.—Robert Edson, the actor, who was taken to a hospital suffering from blood poisoning, was reported today as "doing nicely." The actor's physician said after his morning call that there was no present necessity for an operation.

## How the Trouble Starts.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Tablets, keep your bowels regular and you'll avoid these diseases. For sale by all dealers.

Deep cultivation with the aid of dynamite is being tried experimentally on plantations in India.

# Cripple Creek Mines

## ANOTHER BIG MINING MERGER

### IN CRIPPLE CREEK IS ASSURED

CRIPPLE CREEK, May 23.—Another big mining merger involving 125 acres of mineral land on Raven Hill, owned by the Joe Dandy and Raven Hill Consolidated Mining companies and having for its ultimate purpose a consolidation with the Burris mines, is in process of consummation, according to an announcement by J. S. Miller, of New York, president of the Joe Dandy and Raven Hill Consolidated Mining companies, and is associated with Joseph Walker and Sons of New York.

It is planned to combine the Joe Dandy, which is capitalized at \$1,500,000, and the Raven Hill Consolidated, capitalized at \$2,500,000, and later to include the consolidation in the Burris merger.

The annual meeting of the Joe Dandy at Phoenix, May 23, was controlled by H. H. Barbee and Charles H. White and associates of the Raven Hill Consolidated. Directors were elected as follows: H. H. Barbee, J. S. Miller, W. S. Copeland, William McDonald and Fred Berbow. Mr. Barbee has resigned as director and has named as his representative on the board Charles A. Cleason, a prominent business man of Hartford, Conn. Joseph Walker & Sons of New York City have been elected fiscal agents for the Joe Dandy as well as the Raven Hill Consolidated.

Mr. Barbee for a number of years has been acquiring a large territory, which has been organized into a corporation known as the Raven Hill Consolidated Mining company. He and his associates, and W. S. Copeland have aided largely in the acquiring of the control of the Joe Dandy property and it is understood that this will eventually be consolidated with his group. Through the assistance of Burris and Joseph Walker & Sons, of New York City, the financial plans, it is expected, will be successfully carried out.

Mr. Miller is at present in this district and is the guest of John H. Nichols, consulting engineer of the Joe Dandy company and manager of the El Paso Consolidated Gold Mining company. The Barbee who is interested in the new consolidation was one of the locations of the El Paso and did some of the first work on this property. Charles White was formerly a banker of Colorado Springs but afterward went to Los Angeles where he is now located.

The acreage owned by the consolidation lies between the Elton and the Cresson mines, being a strip of the best land in this district. It is now proposed to develop the mine in a scientific manner and put it on a dividend paying basis and not until that time will it ever be taken over by the Colorado Railway, Mines and Utilities corporation of Delaware. The ore deposits in the new estate will be explored at various depths and as rapidly as possible, the new mine will be paying basis. It may be that the Joe Dandy shift will be the place through which operations will be conducted.

Soon after Barbee and White committed their Raven Hill Consolidation to the Walker company, it was suggested by Allen Burris, chief adviser concerning mines to the Walkers, that the control of the Joe Dandy be secured and this was brought about through the taking over of the shares owned by the J. M. Wright estate.

## DEVELOPMENT OF VICTOR MINE IS PROCEEDING

CRIPPLE CREEK, May 23.—The output from the Victor mine, chief holding of the Smith-Morfit Mines company in this district, amounts to twenty-five cars a month the grade of the ore will run about 15 to 20 tons. This property is now operated under lease by Osberg and Price, who have seven sets of subleases. Three or four machines are worked while some of the development is being done by hand. It is not possible to accommodate more subleases.

There are six sets of subs working in the main shaft while Charles Miller has a block located just north of the main building. Miller is shipping between nine and ten cars a month and his ore is better than an ounce to the ton. He has a good deal of ore left in the block to be taken out.

Jones, another sublessee, working on the eighth level north of the shaft has three or four short shoots and is shipping a fair grade of ore. His lease is the second most important in the mine in the way of production. The main lessees are engaged in developing blocks on the 500 and 800 foot levels. On the fifth a crosscut is being run to the west of the shaft to open some of the known ore bodies in the section of the mine while on eight two crosscuts one east and one west, have been started.

## FREE COINAGE PLANS ARE ALMOST READY

### SURFACE OPERATIONS IN DISTRICT ARE INCREASED

CRIPPLE CREEK, May 23.—Almost any day or any week work on the new mill at the Free Coinage will be started as the way an official of the Colorado Mines Development company that is in referring to the low grade plant to be erected in Altman to treat the dumps on the Free Coinage. It was expected that the excavation would be commenced last week but this was delayed.

The process involved in the mill will be after the Portland and the Strattons Independence only on a small scale since it will include concentration followed by a chemical treatment. Agitation will be used.

Powder salesmen say that the dynamite used in this camp this year amounts to a good many boxes more than for the same period of time last year. Figures will be given at a later date.

The Rose Nicol claim, owned by the Reed Investment company, has been leased to White, Copeland and Buckles. It is their plan to develop the vein opened on the fourth level and to find the shoot will raise above that level.

This claim is located on Battle Mountain and is believed in good territory since vein in adjoining properties have been found to be highly mineralized. The claim has a good production to its credit.

## NEW YORK MARKET

NEW YORK, May 23.—Speculation lacked the vitality to carry further the upward movement of stocks yesterday, and the effect of today's trading on the average of quoted values was negligible. The list opened fractionally lower and although there was no pronounced pressure, stocks sagged generally during the forepart of the day. Subsequently the market moved upward slowly, cancelling the early losses in most cases.

There was renewed liquidation in some quarters of the list. Pennsylvania declined to 109 1/2, the low price for the movement.

St. Louis & San Francisco securities continued their precipitate decline. The first preferred touched 81 1/2, a drop of nearly seven points, and the second preferred declined to 11, a two-point fall.

The cables reported hesitation in the foreign markets. London sold \$1,000,000 of gold at 109 1/2.

Conflicting reports were received as to the effect on sentiment abroad of the flotation of the Chinese loan and it was assumed that the influence upon the investment situation was indefinite as the New York City issue here, the direct stimulus hoped for, having been imparted in neither case.

Another gain in cash by the banks as a result of the week's operations was predicted. Forecasts of tomorrow's bank statement pointed to a cash gain of around \$5,000,000.

Bonds were irregular with a downward movement. Total sales par value \$1,450,000.

United States 2 1/2 coupon declined 1/4 and the 4 1/2 coupon fell 1/2, the latter receding to 114. Later 114 1/2 was bid.

## DENVER LIVE STOCK

DENVER, May 23.—Cattle—Receipts 1,500; steady. Market strong to higher. Top, \$8.62 1/2; bulk, \$8.50 to \$8.55. Hogs—Receipts 500; market strong to higher. Top, \$8.62 1/2; bulk, \$8.50 to \$8.55. Sheep—None.

## CHICAGO MARKET

CHICAGO, May 24.—Statements that rain within a week or so would correct much of the crop damage in Kansas served today to temper down bullish enthusiasm regarding wheat. The market closed heavy from unchanged to 1/2 below. Other leading staples all showed net gains—corn 1/2 to 3/4, oats 1/2 to 3/4 and provisions 1/2 to 3/4.

Latest estimates of the probable yield in Kansas were 110,000,000 to 115,000,000 bu. as against a total of 90,000,000 bu. figured out early in the year by an influential authority. Warmer weather northwest continued slow merchandising trade had effect also on the bear side.

Big world shipments promised made wheat longs willing to take profits. This was done largely at the expense of eleventh hour investors and belated shorts who for a while carried the market sharply higher. When these buyers were finally supplied, however, prices fell back.

Primary receipts of wheat today were 450,000 bushels, a year ago 300,000 bu. Seaboard clearances of wheat and flour equalled 490,000 bu.

In corn, the fact that the country had lightened up on offerings led to a number of big shorts. One concern alone bought 8 million bushels. Stocks here are light. Oats advanced on account of assertions that the seven chief producing states would have one-third less to sell this season than the preceding year.

Packers buying through commission houses gave provisions an uptick after early weakness due to a liberal run of hogs.

WHAT THE CHURCH FOLK ARE THINKING ABOUT AND DOING

Sunday School Lesson and Young People's Topics

### AFFRIGHTED BY GOOD FORTUNE

The International Sunday School Lesson for May 25 is "Joseph and Benjamin," Gen. 43.

By WILLIAM T. ELLIS.

Who dare estimate the number of persons who lie down every night haunted by the spectre of trouble which never appears? This chapter of the romantic story of Joseph is for them. Here we have a dramatic lesson in optimism. The fate which befell Joseph was really their good fortune. They saw as evil, through eyes of fear, that which was only and wholly good. The setting of the story is easily recalled. Joseph was next to Pharaoh, the supreme ruler and administrator of Egypt. Famine was fierce throughout the country, and the adjacent lands. Jacob's ten sons had come down for grain, and had been sent home with laden donkeys. But the ruler had held Simeon as a hostage for the presence of Benjamin on the next trip. Joseph, who did not make himself known to his brother, wanted to see his own blood brother. Jacob refused to let the sons go again for grain until imperative need drove them forth. Then, with wallings, he allowed Benjamin to depart for the sake of the salvation of the family. Judah pledged that he would be sponsor for the youngest child and his safe return.

The Making of a Family.

Many families are made new over the coffin of a mother or a father who in death has accomplished what in life could not be done. Strife and bitterness and division are healed in adversity. Trouble proves a man's friend, and it also shows the wisdom of the proverb that "a brother is born for adversity."

This family of Jacob came to a new dignity and nobility in the trying experience of the famine. Danger and difficulty and sorrow matured them all. Simeon's offer of himself as hostage for Benjamin was a noble deed. Judah's dignified pledge of his own life for the return of Benjamin was manhood at its best. We find each ready to fit his part of service or sacrifice for the welfare of the whole family. The old rivalries had disappeared and had given to the family, did its ancient work with Jacob's family, in educating them into an understanding of the pricelessness of blood relationship.

The Trials That Are Strongest.

Sentimental schoolgirls, and older persons of about the same intellectual development talk a good deal of "kindness" and of their superiority to their own kind. It is a darling belief of every immature person that his family entirely misunderstands him. One of the pathetic aspects of our American life is the number of young men and women who are going home from college to the families who, at the cost of great sacrifice have given them their education, and showing themselves at every point out of sympathy with the old home folks. This is a cup of bitterness that many a father and mother has drained.

The present story is a lesson in the great truth that there are no ties like those of blood. In the end, after all one's fair weather friends have fallen aside, it is one's own family who stand by to the end. Cheap criticism is fond of saying: "God gives us our relatives, but we can choose our friends." The truth is that God does give us our relatives; they are his thought for us. Into our own family we have been born because it is best for our growth. Despite the delusions of immaturity, worldly prosperity brings us no friends quite so true and devoted as those whom God gave us at birth. In all his regal estate in Egypt, Joseph had nobody who meant to him so much as the old family back in Canaan. Home ties last.

The Specter That Never Came.

Little dreaming that the judge they feared was their brother, the sons of Jacob went down to Egypt again. Their attitude and actions were those of scared men. They thought they would be called robbers. They expected imprisonment and punishment. When they found a special reception prepared for them, it confirmed their fears and increased their panic. They were expecting to meet disaster around the next corner, a state of mind that has not yet gone out of fashion. Like most of the troubles that men fear, this one never appeared to Joseph. Instead of difficulties they found themselves welcomed by this mysterious potentate, who had shown such a strange interest in them before. They were received as honored guests and as brothers and disconcerting to those who thought that such things were "too good to be true."

The Call of the Blood.

This was a great hour for Joseph. Only the exile in a foreign land can know the sweetness of a familiar face. The wealth of Egypt and its honors had no power to compensate him for the loss of those who were dearest to him on earth. How the advent of his brothers and especially of the only other son of his mother affected him is seen today in the words of the inspired record: "And he asked them of their welfare and said: Is your father well, the old man of whom ye spoke? Is he yet alive?" And they said: Thy servant our father is well, he is yet alive. And they bowed the head, and made obeisance. And he lifted up his eyes, and saw Benjamin his brother, his mother's son, and said: Is this your youngest brother, of whom ye spoke unto me? And he said: God be gracious unto thee, my son. And Joseph made

haste; for his heart yearned over his brother; and he sought where to weep; and he entered into his chamber, and wept there."

The Family Feast and Its Secret.

All unknown to the guests, the elaborate feast prepared for them was a family gathering, and the greatest day of their lives. They were so busy worrying over what might happen that they could not recognize the blessing in front of their faces. Even the significance of the fact that they were seated according to their ages was lost upon them. The special portion, that was given to Benjamin, caused them to marvel, and yet they did not see through it. Had they not been so worried and fearful, they would readily have understood that one of the great advantages such as all peoples have in their lore was being enacted before their eyes.

However, we cannot blame these Hebrews too strongly, since most of us are in like case. God plans good for us, and we fear evil. He sets us in a world of blessing, and we dread it as if it were a world of impending disaster. God takes us into his banquet house, and his banner over us is love, but we refuse to accept the privileges and joys of the family relationship with him.

THE GOSPEL AND LABOR

Terse Comments Upon the Uniform Prayer Meeting Topic of the Young People's Societies, Christian Endeavor, etc., for May 25: "Mission Work at Home and Abroad," V Industrial Missions; Acts 18:1-6.

By WILLIAM T. ELLIS.

"The Great Catastrophe of 1913," is what Dr. Charles M. Sheldon called a brilliant allegory which he published recently in the Independent. It pictured the gradual palsy of the hands that labored. This strange affliction spread from man to man, until all the hands that did the world's work were useless. In kitchen, mill, shop, mine—wherever men and women toiled with their hands, this mysterious, epidemic spread. When soft-handed brain-workers and employers tried to take the place of the laborers, they too became afflicted. All the machinery of civilization was stopped within a week. Then, in the darkness of this unparalleled calamity, the world learned how dependent it is upon the manual worker. Dr. Sheldon's dramatic allegory was a unique tribute to the part industry plays in life. The great preacher never uttered from his pulpit a mightier sermon than this gospel of labor.

The strength of the church is the everyday man who labors. Board secretaries and ecclesiastical dignitaries and some pastors may occasionally fawn upon the rich man, but the Christian ministry understands full well that it is the small regular gifts of the workmen, rather than the contributions of the few large givers, which pay the expenses of church work. This is true on the financial side of service and worship. The great bulk of the church membership of North America is made up of workmen. The best friends and followers of the Nazareth Carpenter have ever been the men who toil.

One of the finest of all poems of labor is Henry van Dyke's "Toiling of Felix." These extracts may stand by themselves.

"Every mason in the quarry, every builder on the shore, every shopper in the palm-grove, every fisherman at the oar, water splitting stones and cleaving sod, all the dusty ranks of labor, in the regiment of God, march together toward his triumph. He took his hands and prayer. Honored, toil is holy service; faithful work is praise and prayer."

They who tread the path of labor follow where my feet have trod. They who work without complaining do the holy will of God.

This is the gospel of labor, ting it, ye bells of the Kirk! The Lord of Love came down from above, to live with the men who work. This is the rose that he planted, here in the thorn-crust soil. Heaven is blest with perfect rest, but the blessing of earth is toil."

On the mission field, as everywhere else, Christianity has to do with men who work. In some lands notably in India, the missionaries have had to train their converts up into new forms of self-support. Refused from their old relationships because they have become Christians, these natives have to be taught other industries. Thus it is that in India especially there are a great many industrial missions, some of which are almost wholly self-supporting.

"Ascend a step in choosing a friend," is a wise saying. The choice of Christ by multitudes of pagans has resulted in their rising to a new and higher plane of life. The case of Christ, the Indian sons of outcast fathers who became converts is in point. There are young men in the government service in India today, whose stimulus to new life and whose education were secured through the missionaries, who are making more money in a month than their fathers made in a year. They have risen above the old despised caste, and have become honored members of the community. With them, as ever, the gospel has meant largeness of life, as well as newness of life.

The old cry, "rice Christians," is seldom heard nowadays. It once was freely charged that Catholics became Christians only for gain. The strength and self-support and benevolence of the native Christians are a sufficient answer to this. On the whole, the converts on the mission field give more, relatively, to the work of the gospel than the Christians in the home land.

The late-making of Armenia, China, India, Japan and Korea—immense industries, which now support tens of thousands of persons—was taught to the natives by missionaries, Protestant and Roman Catholic. This is but one

BLACK, TAN AND WHITE COLORS

instance of the introduction of new vocations by the representatives of the gospel.

It was a missionary who invented the jinnichsha, that indispensable vehicle of Asia, which has given employment to hundreds of thousands of men.

We may not overlook the native teachers in mission lands, who have been fired with a passion for service to their country because of their Christian training.

The gospel has business with all of man, as well as with all men. It imports self-respect, and habits of thrift and industry, so that, for instance, in Korea today, the difference between the Christians and the heathen is apparent at a glance. "If any man be in Christ Jesus, he is a new creature," new all the way through.

SEVEN SENTENCE SERMONS

Opportunities do not come with their values stamped upon them—every one must be challenged.—Maitland D. Babcock.

A true life is at once interpreter and proof of the gospel.—Whittier.

When my ill-schooled spirit is aflame Some nobler, ampler life to win, I'll stop and say: "The aids to noble life are all within."—Matthew Arnold.

No honor, no reward, however great, can be equal to the subtle satisfaction that a man feels when he can point to his work and say: "The task I promised to perform, with all loyalty and honesty to the utmost of my ability is finished."—Henry M. Stanley.

The wonderful thing about a man is his power to become.—E. I. Bosworth.

The past and the future are shadows. The present is ours for aye. To us it is given to build our heaven in the kingdom of today.—Anon.

The greatest man is he who chooses the right with invincible resolution, who resists the sorest temptations from within and from without, who bears the heaviest burdens cheerfully, and whose reliance on truth, on virtue, on God, is most unflinching.—W. B. Channing.

A man living at Auburn, New York, had a severe attack of kidney and bladder trouble. Being a working man, not wanting to lose time, nor run up a heavy doctor's bill, he cured himself completely by using Foley's Kidney Pills. A year later he says: "It is a pleasure to report that the cure was permanent." He has had no return whatever of the pain, backache and burning. His name is J. A. Farmer, and he says: "Of course, I recommend Foley's Kidney Pills as a very effective cure for kidney and bladder trouble." Robinson Drug Co., Adv.

The streets of more than 250 towns in France and Algeria are lighted exclusively by acetylene.

They are thoroughbred rearing Herefords and are especially dressed for us by the Smith Packing Company. Also a full line of selected mutton, veal, pork and spring lamb, all the fruits and vegetables of the season. A few fresh dressed Belgian hare left.

LONGFIELD & SON.

## Colorado City DEPARTMENT

PLANS MUNICIPAL PLANT

A plan for the city to own its electric light plant has been formed by former Mayor P. J. Hamble, and he will suggest it to the city council in the near future. His idea is to bond the city for \$200,000, to build the plant, paying 5 per cent interest on the bonds. This interest will amount to \$1,500 a year, and he figures that the operating expense of the plant will be only \$2,400 a year. This will make the total expenses of the plant \$3,900 a year. Colorado City, though the city organization and individuals, paid \$14,000 last year for electric lights, \$10,000 more than what he figures the expenses of the new plant will be. Under this operation, he thinks, rates could be cut greatly and profit could still be left over, to provide a fund to retire the bonds, and to add to the general city revenue.

W. J. Palmer post, G. A. R.

Dr. L. A. Miller, who has been spending the last two weeks in Texas, at Galveston, Dallas and Corpus Christi, has returned to this city.

Costly Treatment.

"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlow, Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by all dealers. Adv.

G. A. R. SERVICES

At a meeting of W. J. Palmer post, G. A. R. and of the Ladies' circle of the G. A. R. at 2 o'clock this afternoon in Geoffrey hall, Department Commander H. M. Minor will speak.
